For the list of supported devices, see the URL below.

https://www.renesas.com/smart-configurator

### 2.2 Issues Fixed

The issue described in the following note has been fixed.

- (1) RENESAS TOOL NEWS Document number: R20TS0466ES0100
- 1. When Using the NACK reception transfer suspension function on the I<sup>2</sup>C bus interface
  - Applicable devices: RX110, RX111, RX113, RX130, RX230, RX231, RX23T, RX24T, RX24U, RX64M, RX651, RX65N, RX66T, RX71M, RX72M, and RX72T groups

For details about this issue, see the URL below.

https://www.renesas.com/search/keyword-search.html#genre=document&g=r20ts0466

### 3. Updating Your Product

The update method varies depending on the product you are using.

For details, see the following sections. The updates are available free of charge.

### 3.1 For e<sup>2</sup> studio

The installation procedure is as follows.

- (1) Activate e<sup>2</sup> studio.
- (2) From the [Help] menu, click the [Check for Updates].
- (3) Select all the components displayed in the [Available Updates] panel, and then click the [Next] button.
- (4) Review and confirm the updates in the [Update Details], and then click the [Next] button.
- (5) After reviewing the licenses, check the [I accept the terms of the license agreements] radio button. Then, click the [Finish] button.
- (6) If the dialog box for selecting a trusted certificate appears, check the displayed certificate, and then click the [OK] button to continue the installation.
- (7) Restart  $e^2$  studio according to the instructions on the screen.

## 3.2 For CS+

Update your program by either of the following methods:

(1) Download and install the Smart Configurator for RX from the URL below.

(Download will be available as of November 5.) https://www.renesas.com/smart-configurator#downloads

Smart Configurator for RX V2.3.0

If you haven't installed CS+ Device Information for RX V3.03.00, refer to the following URL and install the update.

[Upgrade to revision] CS+ Device Information for RX family V3.03.00

https://www.renesas.com/search/keyword-search.html#genre=document&q=r20ts0492

(2) On the Start menu, select Programs > Renesas Electronics CS+ and then start the Update Manager to install the update. (This service will be available on November 20.)

M0120001

"CubeSuiteW+.exe"

Installation is suspended because "CubeSuiteW+.exe" is running.

It will be resumed next time you start the tool.

Note: If your CS+ has been launched with rapid startup enabled, exit the CS+ once, and then run the Update Manager. If the CS+ is resident in the notification area of Windows (system tray) due to rapid startup, an error occurs and produces the following message:
