Responsible Minerals Procurement Policy

Renesas is committed to responsible mineral procurement using the “Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas” implemented by the Organization for Economic Co-operation and Development (OECD) as a reference.

Renesas is also committed to the goal that products supplied by our suppliers must not contain Conflict Minerals illegally produced from conflict-affected and high-risk areas, to avoid assistance in the violations of human rights and environmental destruction of such areas.
