FY16/3 Financial Results

Since FY16/3, Renesas Electronics Group (hereinafter “the Group”) started to disclose Non-GAAP financial measures (hereinafter “Non-GAAP basis”) used for management’s decision making. The Group defines the Non-GAAP consolidated financial results as financial accounting figures (hereinafter “GAAP”) excluding non-recurring and other items. The Group believes Non-GAAP operating income is useful information to understand its recurring operating performance.

FY16/3 Q4 and Full-Year Summary of Financial Results

Major factors affecting increase or decrease in Q4 semiconductor sales

■ Semiconductor Sales

- Semiconductor sales were expected to be flat QoQ, however turned 163.2 billion yen, a 2.3 billion yen increase, due to an increase in Automotive sales

Major factors affecting increase or decrease in Q4 profit

■ Gross Margin and Operating Income (Margin)

- Gross margin decreased by 2.8Pts QoQ to 40.8%, due to a decrease in inventory build-up and a seasonal increase in manufacturing costs
- Operating margin decreased by 5.8Pts QoQ to 9.4% due to the seasonal cost increases from R&D and SG&A, etc. at the end of the fiscal term in addition to a decrease in gross margin
- Operating income decreased by 9.2 billion yen to 15.7 billion yen despite an increase QoQ in net sales

Major factors affecting increase or decrease in full year semiconductor sales

■ Semiconductor Sales

- Semiconductor Sales decreased by 10.3% YoY to 675.6 billion yen due to withdrawal from non-core products and businesses as a result of the structural reforms

Major factors affecting increase or decrease in full year profit

■ Gross Margin and Operating Income (Margin) and final results

- Gross margin increased by 3.8 Pts YoY to 44.1% mainly due to manufacturing-related cost reduction effects from structural reforms in addition to positive currency impact
- Operating margin increased by 1.8Pts YoY to 15.0% due to increased gross margin and the efficiency of the SG&A, despite the increase of the R&D towards growth
- Operating income is approx. the same level as previous year with 103.8 billion yen and final results are a new record high profit of 86.3 billion yen, despite decrease in net sales

FY16/3 Q4 and Full-Year Financial Snapshot

Q4 net sales and profits were slightly better than expected

Although net sales for full-year decreased, operating income remained at the same level as previous year and net income improved YoY

YoY and QoQ results as well as the Difference from previous forecasts of the Net Sales and Semiconductor Sales are rounded off to one decimal place

Semiconductor Sales by Business (Non-GAAP Basis *1)

Automotive: Increase of 3% QoQ, but decreased by 1% YoY due to decrease in Automotive Information sales
General-Purpose: Remained flat QoQ, however declined by 12% YoY, due to structural reforms and decrease in Other General-Purpose sales

Automotive Business

General-Purpose Business

*1 Non-GAAP; Results excluding the impacts of sales and profit (loss) of Renesas SP Drivers, impacts of profit (loss) of LTE modem business and profit (loss) from inventory buildup

Quarterly Financial Results (Non-GAAP Basis)

Despite a QoQ decline in gross and operating margins due to a rebound from temporary factors that contributed to the first-half gross margin, supported by increased sales, they both improved in the Q4 from the previous forecasts

Trends in Core and Non-Core Business Sales Ratio and Gross Margin (Non-GAAP Basis)

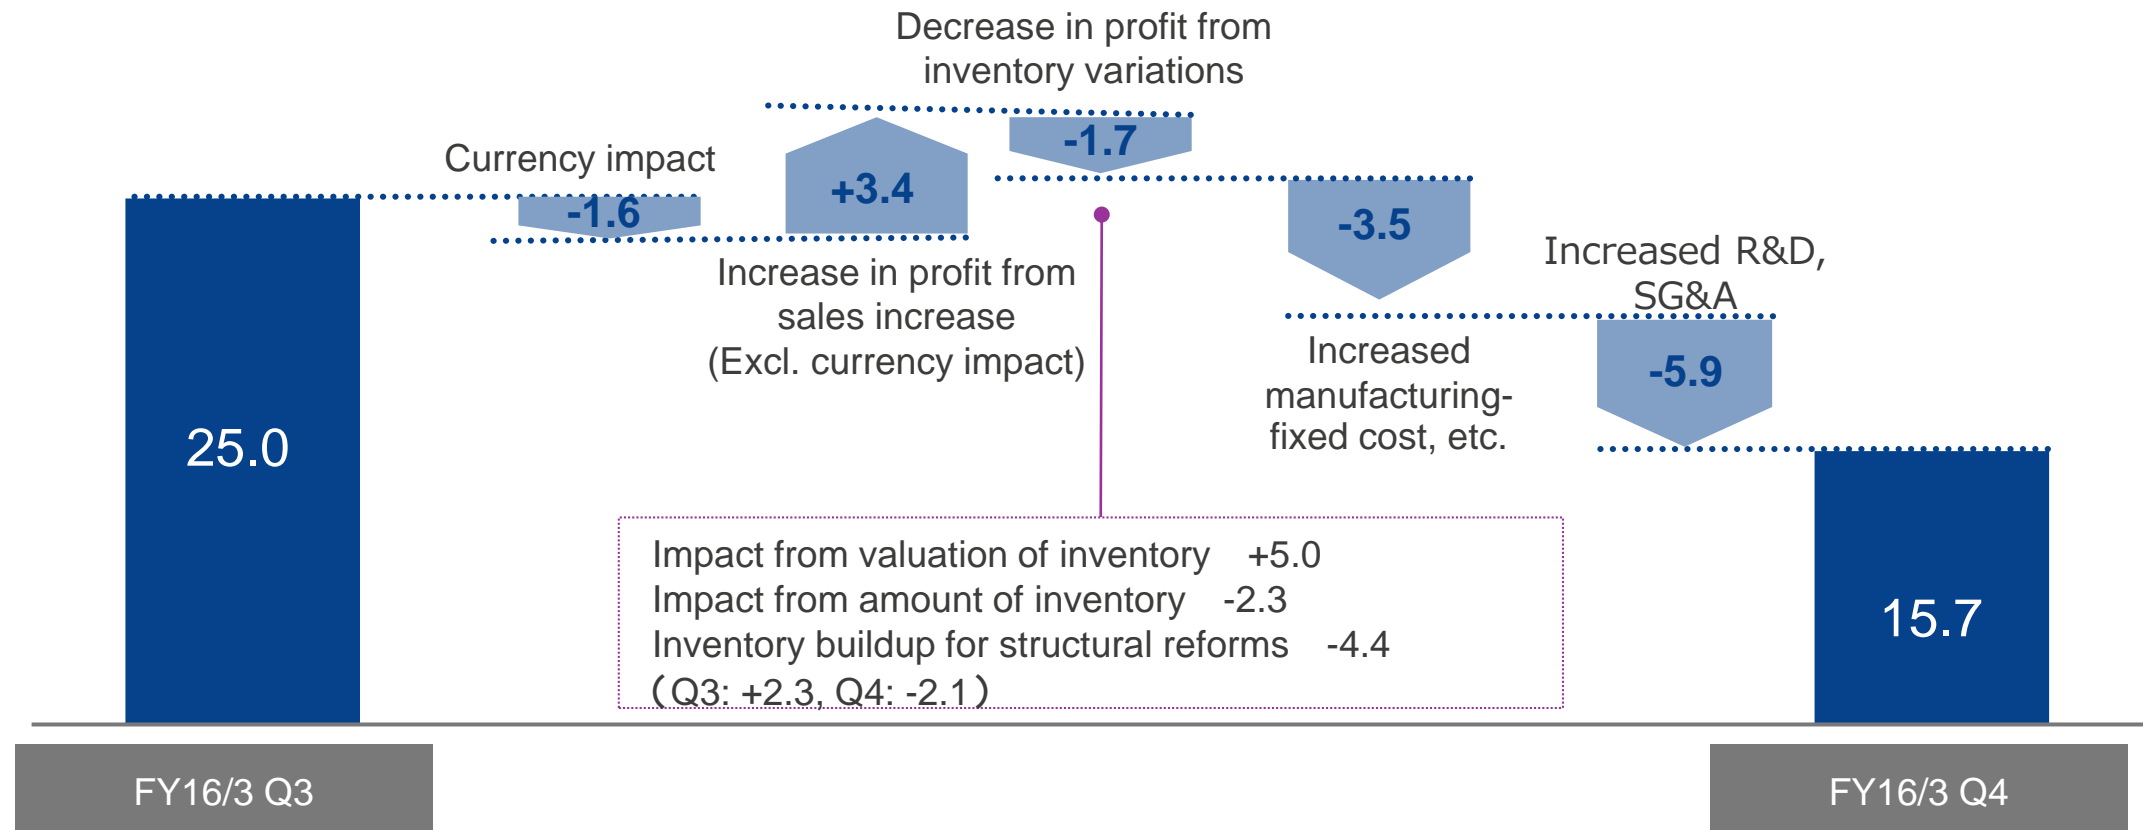

Continuously improving gross margin through structural reforms and reforming business structure to become resistant to market volatility

FY16/3 Q4 Operating Income

QoQ (B yen)

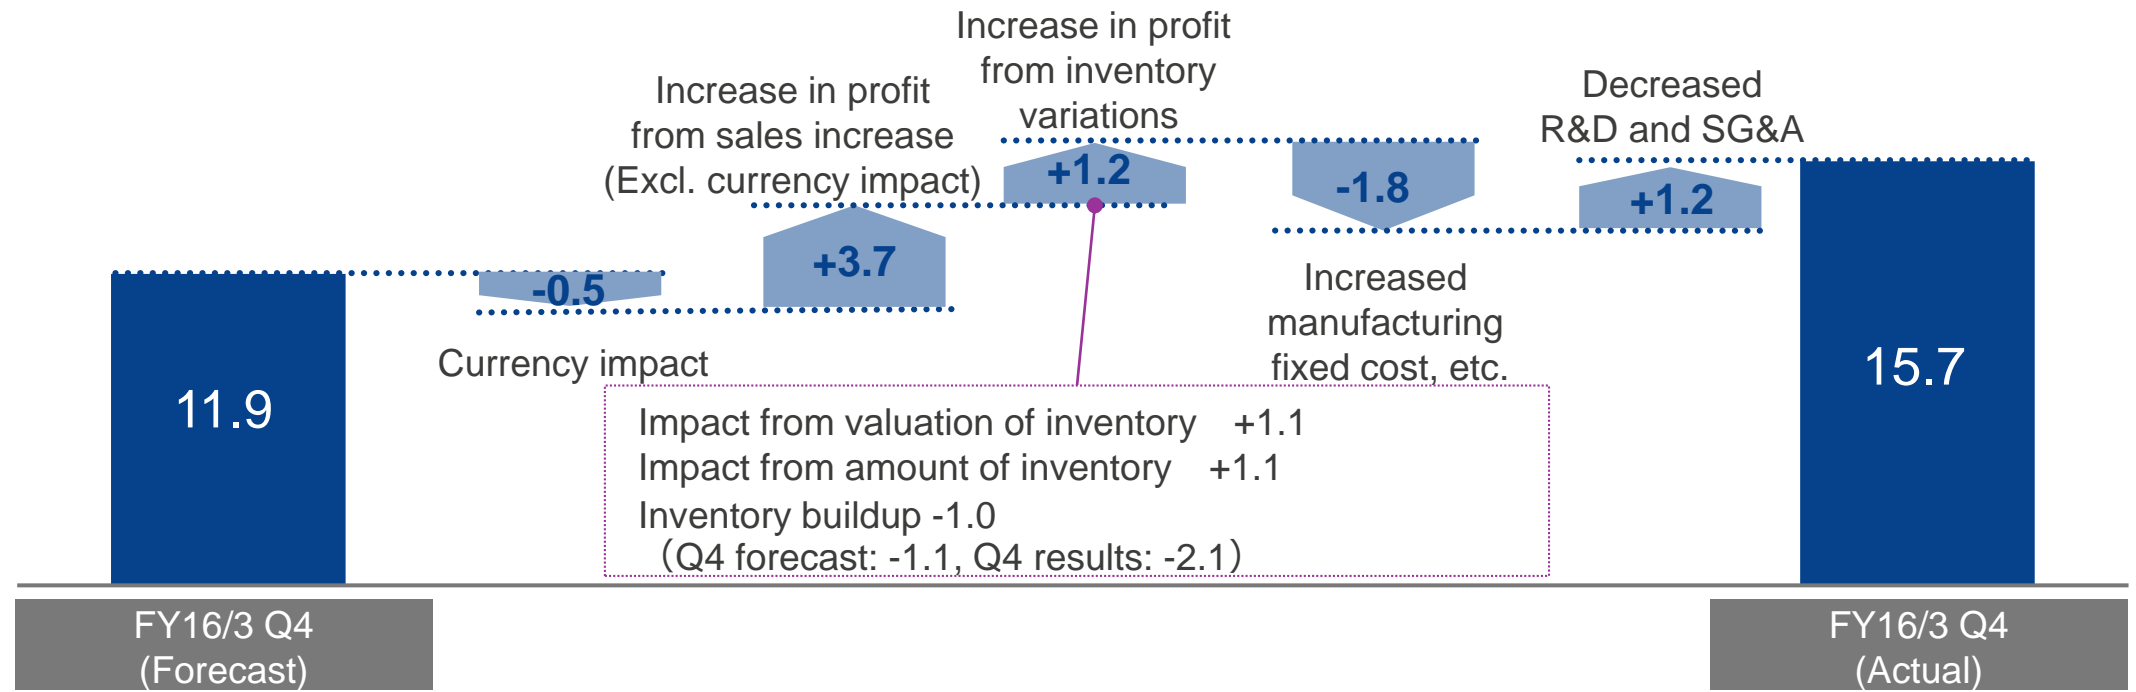

- Despite a sales increase, Q4 operating profit decreased by 9.2 billion yen QoQ due to increased cost, a decrease in profit from inventory variations and negative currency impact

FY16/3 Q4 Operating Income

In Comparison with Forecasts (Feb 9, 2016) QoQ (B Yen)

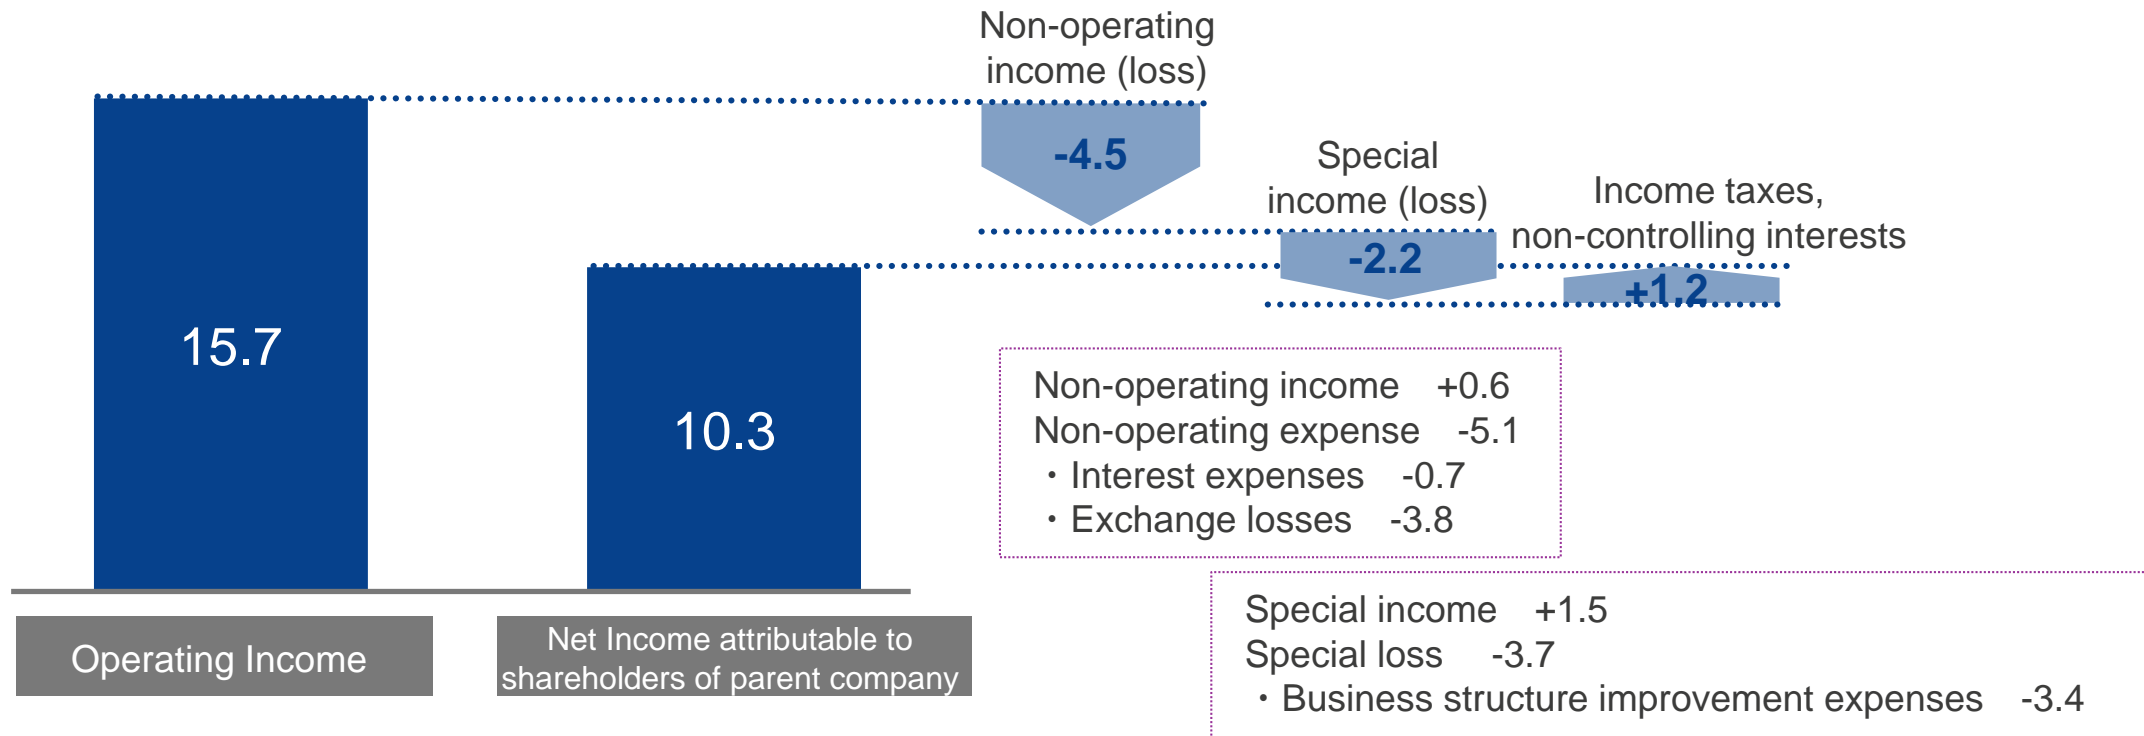

- Increased by 3.8 billion yen from the previous forecast supported by an increase in profit from sales increase and inventory variations, cost containment effects etc.

FY16/3 Q4 Net Income Attributable to Shareholders of Parent Company

(B Yen)

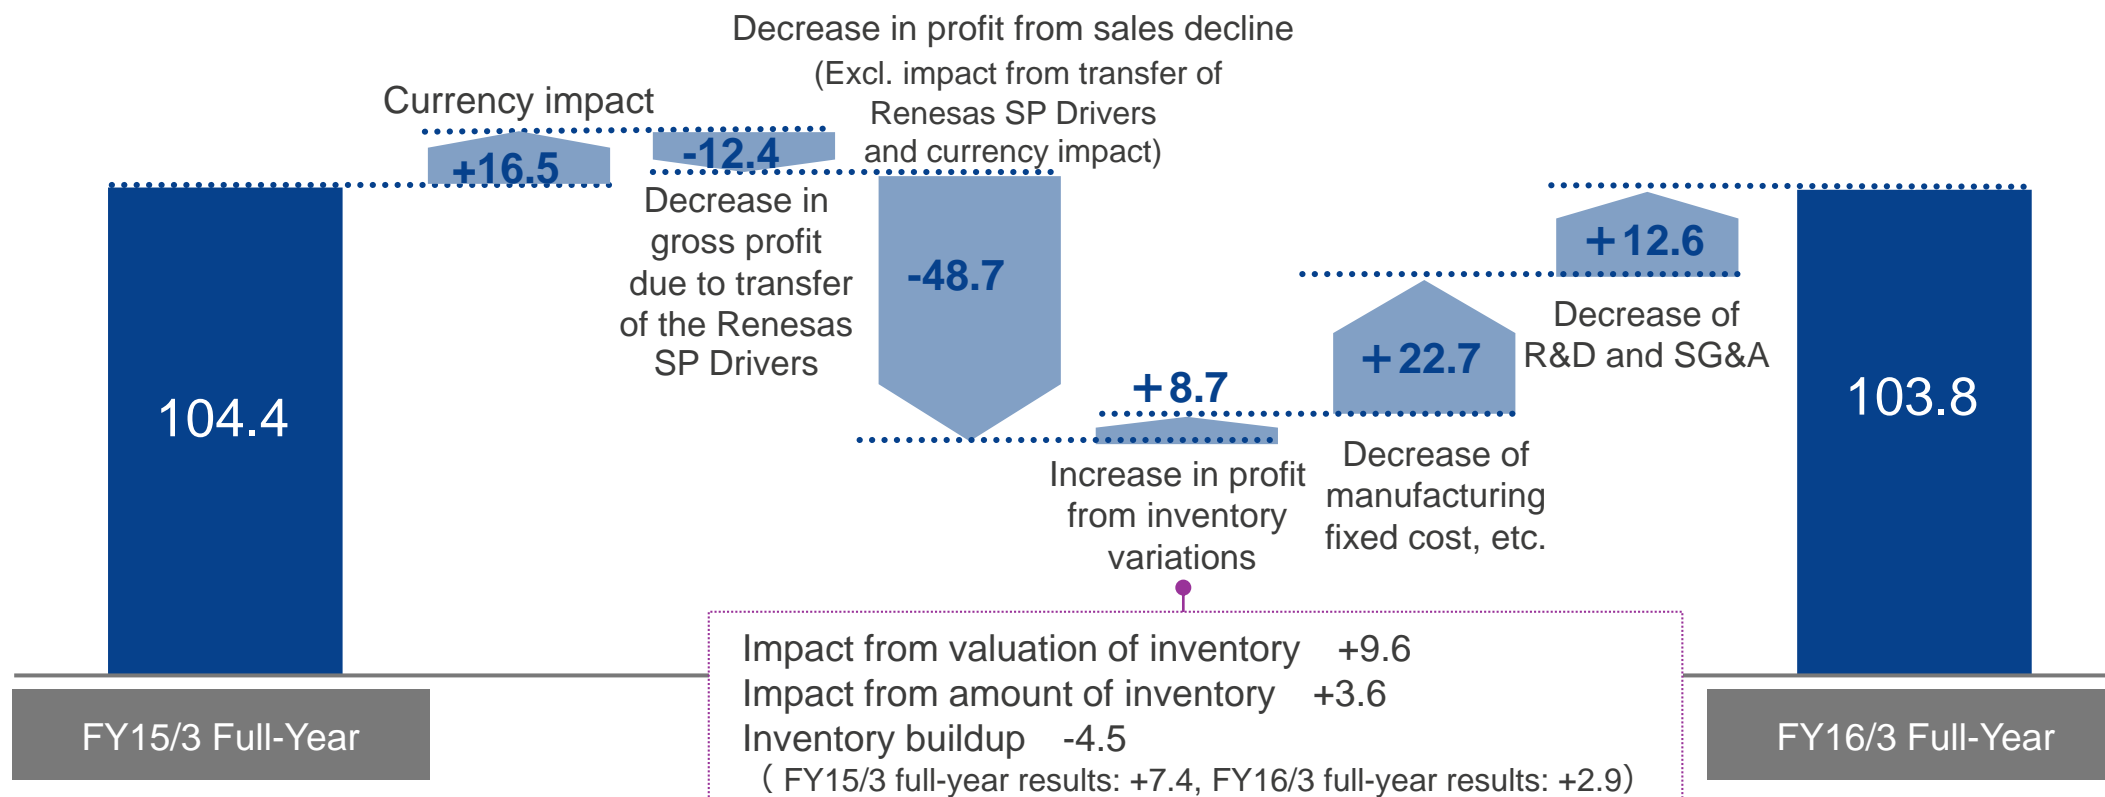

- Recorded net income attributable to shareholders of parent company of 10.3 B yen

FY16/3 Full-Year Operating Income

YoY(B Yen)

- Despite the large decline in profit caused by sales decreases and gross profit from the transfer of Renesas SP Drivers, operating income stayed at the same level as previous year with 103.8 billion yen, due to the decrease in manufacturing-fixed costs from structural reforms; streamlining of R&D and SG&A costs; and positive currency impact etc.

FY16/3 Full-Year Net Income Attributable to Shareholders of Parent Company

(B Yen)

- Recorded net income attributable to shareholders of parent company of 86.3 billion yen due to a special loss of 13.9 billion yen

(FOREWARD-LOOKING STATEMENTS)

The statements in this presentation with respect to the plans, strategies and forecasts of Renesas Electronics and its consolidated subsidiaries (collectively “we”) are forward-looking statements involving risks and uncertainties. We caution you in advance that actual results could differ materially from such forward-looking statements due to several factors. The important factors that could cause actual results to differ materially from such statements include, but are not limited to: general economic conditions in our markets, which are primarily Japan, North America, Asia and Europe; demand for, and competitive pricing pressure on, our products and services in the marketplace; our ability to continue to win acceptance of its products and services in these highly competitive markets; and movements in currency exchange rates, particularly the rate between the yen and the U.S. dollar. Among other factors, a worsening of the world economy; a worsening of financial conditions in the world markets, and a deterioration in the domestic and overseas stock markets, would cause actual results to differ from the projected results forecast.
