
PRODUCT CHANGE NOTICE

Test Site Change for the Listed Intersil Products

**Refer to:
PCN13014**

Date: March 26, 2013

March 26, 2013

To: Our Valued Intersil Customer

Subject: **Test Site Change for the Listed Intersil Products – STATS ChipPAC (SCM) - Kuala Lumpur, Malaysia**

This notice is to inform you that Intersil is transitioning the final electrical test, tape and reel, and packing operations for the listed products to the STATS ChipPAC (SCM) facility located in Kuala Lumpur, Malaysia. Intersil will discontinue the use of the current facility, ANST (*Wuxi CR Micro-Assembly Technology Ltd.*), upon expiration of this notice and completion of all transfer activities. The product and site-specific verification activities are in progress and scheduled to complete in May 2013.

Products affected:

DG403DYZ-TS2457	ISL78307FBEAZ	ISL78307FBEBZ-T
ICL7660CBAZ-TS2457	ISL78307FBEAZ-T	ISL78307FBECZ
ISL6625CRZ-TS2568	ISL78307FBEBZ	ISL78307FBECZ-T

The STATS ChipPAC (SCM) facility is ISO 9001:2008 and ISO/TS 16949:2009 certified and currently qualified as a primary supplier to Intersil for testing of packaged products. The following summarizes the activities that will be conducted prior to production release to confirm there is no impact to form, fit, function, or interchangeability of the product.

- Intersil supplied test software and product specific hardware will be used at SCM.
- The test equipment validation plan involves the testing of control units and a correlation lot of product at the SCM and current facility. The *DG403* and *ISL78307* have been selected as the qualification vehicles for this activity.
 - Control units will be tested at the current test site and retested at SCM, their performance recorded, and the results analyzed to validate the set-up.
 - A correlation lot of approximately 1000 units will be tested at the current test site and retested at SCM. The test results from each site will be compared.
 - Continuous monitoring and comparison of the data from lots processed at multiple sites are an ongoing function of the responsible product engineers.
- The visual/mechanical inspection and tape and reel operations are compliant to JEDEC industry standards used by all Intersil subcontractors.

Product affected by this change is identifiable via Intersil's internal traceability system

Intersil will take all necessary actions to conform to customer requirements and to ensure the continued high quality and reliability of Intersil products being supplied. Customers may expect to receive product manufactured at the SCM facility beginning *ninety* days from the date of this notification or upon depletion of existing inventory.

If you have concerns with this notice, Intersil must hear from you promptly. Please contact the nearest Intersil Sales Office or call the Intersil Corporate line at 1-888-468-3774, in the United States, or 1-321-724-7143 outside of the United States.

Regards,

Jon Brewster
