

## Brief Description

The ZSPM4022-06 is a constant-frequency, synchronous DC/DC buck regulator featuring adaptive on-time control architecture. The ZSPM4022-06 operates over a 4.5V to 19V supply range (12V typical). It has an internal linear regulator that provides a regulated 5V to power the internal control circuitry. The ZSPM4022-06 operates at a constant 600kHz (typical) switching frequency in continuous-conduction mode and can be used to provide up to 6A of output current. The output voltage is adjustable from 5.5V down to 0.8V.

Under medium to heavy loads, the ZSPM4022-06 provides high efficiency and ultra-fast transient response via its rapid-control architecture. Under light load conditions, it maintains high efficiency and a superior transient response by transitioning to variable-frequency, discontinuous mode operation with its ultra-light-load architecture.

The ZSPM4022-06 offers a full suite of protection features to ensure protection of the IC during fault conditions. These include under-voltage lockout to ensure proper operation under power-sag conditions; thermal shutdown; internal soft-start to reduce inrush current; foldback current limiting; and “hiccup” mode short-circuit protection. The ZSPM4022-06 includes a power good (PG) output to allow simple sequencing.

## ZSPM4022-06 Typical Application

## Benefits

- Ultra-light load efficiency – up to 80% at 10mA
- Up to 95% efficiency
- Feedback reference accuracy as high as  $\pm 1\%$

## Features

- Rapid-control architecture enables operation with a high input/output voltage ratio (e.g.,  $V_{IN} = 19V$  and  $V_{OUT} = 0.8V$ ) and small output capacitance
- Adjustable output voltage from 0.8V to 5.5V
- Universally compatible with most output capacitors—stable with zero to high ESR
- Power good (PG) output
- Foldback current limiting and “hiccup” mode short-circuit protection
- Safe start-up into pre-biased loads

## Available Support

- Evaluation Kit
- Support documentation

## Physical Characteristics

- Input voltage range: 4.5V to 19V
- Output current: up to 6A
- Switching frequency: 600kHz
- Junction temperature:  $-40^{\circ}\text{C}$  to  $+125^{\circ}\text{C}$
- 28-pin 5mm  $\times$  6mm QFN package

Product Sales Code	Description	Package
ZSPM4022AA1W06	ZSPM4022-06 QFN28 5mmx6mm — Temperature range: –40°C to +125°C	7" reel with 1000 ICs
ZSPM4022-06-KIT	Evaluation Kit for ZSPM4022-06, including ZSPM4022-06 Evaluation Board.	Kit
