1. Target product and version

Product	Outline	Control Code ^{Note}	Upgrade Method
QB-V850ESX3H	In-circuit emulator for V850E/SJ3-H and V850E/SK3-H	A, B	Upgrade by user or upgrade by sending the product to NEC Electronics

It is not necessary to upgrade control code C.

Note The control code is the second digit from the left in the 10-digit serial number. To see if the product has been upgraded, click the ID850QB **Help** menu, select **About**, and then check the control code.

X in IECUBE **** **X** F/W: V** is the control code.

2. Upgrade details

Restriction No. 2 described in *QB-V850ESX3H In-Circuit Emulator for V850E/SJ3-H and V850E/SK3-H3 Usage Restrictions* (ZBG-CD-09-0056) will be corrected.

After upgrading, the control code will be C. See the document for details.

3. Upgrade start date

Two types of upgrade are available: upgrade by user and upgrade by sending the product to NEC Electronics.

Both methods are available, but we recommend customers to upgrade by themselves, because upgrades by sending the product to NEC Electronics may require two weeks or longer.

3.1 Upgrade by user

The upgrade file can be downloaded from the website from October 23, 2009.

This schedule may change.

The latest version of the upgrade file (for firmware, FPGA data, etc.) is available on the Development Tools Download page on the NEC Electronics website.

Download the file and upgrade the product by referring to *How to Upgrade QB-V850ESX3H* (ZUD-CD-09-0211), which is included with the file.

URL: <http://www.necel.com/micro/en/ods/> → Click **Version-up Service**.

Category: Each Development Tool → IECUBE_Software

Product Name: QB-V850ESX3H

Version: Rev. C

3.2 Upgrade by sending the product to NEC Electronics

Upgrading by sending the product will be available from October 30, 2009.

This schedule may change.

For details, contact an NEC Electronics sales representative or distributor.

The upgrade described herein will be provided for free for a period of one year from the above date.

After the free upgrade period expires, an upgrade will be available for a fee. We therefore recommend that you take advantage of the free upgrade offer during the free upgrade period.

The product versions of NEC Electronics in-circuit emulators are indicated by a control code. The control code is the second digit from the left in the 10-digit serial number. To see if the product has been upgraded, click the ID850QB **Help** menu, select **About**, and then check the control code.

X in **IECUBE **** X FW: V*.**** is the control code.
