## A Note on Using the T-Engine Development Kit R0P7780TH001TRK for the SH7780 MCU, SuperH Family

Please take note of the following modification made to the T-Engine development kit R0P7780TH001TRK for the SH7780 MCU, SuperH family:

- "HI ApplicationEngine for T-Engine", which is included with R0P7780TH001TRK, has been revised from V2.0A to V2.0B

---

### 1. Description of Revision of "HI ApplicationEngine for T-Engine"

Fixed has been the problem with floating-point operations that arises when "T-Kernel" included in "HI ApplicationEngine for T-Engine" is used. For details, see T-Engine Forum T-Kernel upgrade information :TEF020-W001-01.00.00/en.

### 2. How to Install "HI ApplicationEngine for T-Engine" V2.0B

(1) Download an object "kernel-rom.zip" of V2.0B from the Web site.  
This site will be opened from October 4 on.

(2) Decompress the downloaded ZIP file to obtain kernel-rom.mot, and substitute the kernel-rom.mot for the one residing in the following folder:

¥hiae¥Rom

Here, is the folder where "HI ApplicationEngine for T-Engine" V2.0A has been installed.
