This page will be updated on December 16.

3. Updating Your Product

Online updating is available free of charge. To update either your commercial edition or evaluation edition of CubeSuite+, use either of the following methods.

If you are using the common program group of CubeSuite+ V1.03.00 or earlier, please download and install the evaluation edition of CubeSuite+ V2.01.00 from the following URL:

https://www.renesas.com/cs+_download

The above URL is one of our global sites.

(1) Use Update Manager

On the Start menu, select Programs and then Renesas Electronics CubeSuite+ to start the Update Manager.
This service will be available on and after December 16.

Note: If your CubeSuite+ has been launched with the rapid startup enabled, exit the CubeSuite+ once, and then run the Update Manager.

If the CubeSuite+ is resident in the notification area of Windows (system tray) due to rapid startup, an error occurs with the following message:

M0120001

Installation is suspended because "CubeSuite+W.exe" is running.

It will be resumed next time you start the tool.

(2) Download the installer of the product from our Web site

Download CubeSuite+ DevInfo_RX V1.00.07 from the following URL:

https://www.renesas.com/cs+_download

Then install it.

The above program will be published on December 20.
