RENESAS Tool News

Device Information for the RX Family MCUs, Which is Used in CubeSuite+, Revised to V1.02.00

We have revised the device information for the RX Family MCUs, CubeSuite+ DevInfo_RX, from V1.01.00 to V1.02.00.

1. Product and Versions to Be Updated

CubeSuite+ DevInfo_RX V1.01.00 or earlier

To check to see your version number, refer to the following URL:
https://www.renesas.com/cs+_ver

2. Descriptions of Revision

(1) Device Information Modified
The information on the following MCUs has been modified:
- RX110 group
- RX111 group
- RX21A group
- RX64M group

(2) Problems Fixed
The following problems, of which we informed you in RENESAS TOOL NEWS Document No. 140416/tn4, have been fixed:
- With IOR panel display for the RX64M group
- With I/O header file for the RX64M group
For details of these problems, see the following page:
https://www.renesas.com/search/keyword-search.html#genre=document&q=140416tn4

The I/O header file has also been updated as part of the updates for this revision.
The updated I/O header file is applicable when new projects are created.
The I/O header file in existing projects is not automatically updated.
Thus, if you wish to update the I/O header file of an existing project, create a new dummy project and manually copy the automatically created

header file to your project.

3. Updating Your Product
Online updating is available free of charge. To update either your commercial edition or evaluation edition of CubeSuite+, use either of the following methods.

3.1 For CubeSuite+ V2.00.00 or Later
To update your program, use either of the following methods:
(1) On the Start menu, select Programs and then Renesas Electronics CubeSuite+ to start the Update Manager.
This service will be available from July 1.

Note: If your CubeSuite+ has been launched with
rapid startup enabled, exit the CubeSuite+ once,
and then run the Update Manager.
If the CubeSuite+ is resident in the notification area
of Windows (system tray) due to rapid startup,
an error occurs and produces the following message:

M0120001
Installation is suspended because "CubeSuite+W.exe" is
running.
It will be resumed next time you start the tool.
----

(2) Download and install CubeSuite+ DevInfo_RX V1.02.00
from the following URL:

   https://www.renesas.com/cs+_download
The above program will be published on July 7.

3.2 For CubeSuite+ V1.03.00 or Earlier
Please download and install the evaluation edition of
CubeSuite+ V2.02.00 from the following URL:
   https://www.renesas.com/cs+_download
Then, update your program by using the method in 3.1 (1) or (2) above.
