## 3. How to Update Your Product

Free-of-charge online update is available. If you are using the product concerned, use the Autoupdate utility (will be available on and after August 22) or perform the following procedures:

- (1) Download the update program (a ZIP file) of the product from the Web site at  
[http://www.renesas.com/e10a\\_usb\\_download](http://www.renesas.com/e10a_usb_download)  
This site will be opened from August 22 on.
- (2) Decompress the downloaded ZIP file to obtain the installer program (HewInstMan.exe) and execute it.

## 4. Notice

If the installer program is executed in the system where High-performance Embedded Workshop V.4.01.01 or earlier resides, it will be upgraded to V.4.03.00.

### Attention:

Change in Download Function and Product Information Pages

Since June 1st, 2007, download data and product information have only been updated on the Renesas global web site (<http://www.renesas.com/homepage.jsp>), not our regional web sites. For the latest versions of download data and product information, please visit our global web site. This is a temporary situation and regional web sites will be updated once again by the end of August.

Technical documentation and Tool News newsletter are not effected by this temporary situation and you can still find the latest support information on both our regional and global web sites. Thank you for your understanding.
