The E6000 Emulator Software Revised to V.6.00 Release 01 (Used for the H8/300L Super Low Power MCU Series)

We have revised the E6000 emulator software to V.6.00 Release 01. The software is used for the H8/300L Super Low Power series of MCUs.

---

1. **Products and Versions to Be Updated**

   (1) The emulator software V3.00.00 for the E6000 emulators HS388REPI60H and HS3880EPI60H

   (2) The emulator software V3.01.00 through V.6.00 Release 00 for the E6000 emulators HS388REPI60H, HS3880EPI60H and HS38000EPI61H; and the evaluation-chip board HS388REBK61H

   (3) The emulator software V2.00.00 for the E6000 emulator HS3800EPI60H

   (4) The emulator software V2.01.00 through V.6.00 Release 00 for the E6000 emulators HS3800EPI60H and HS38000EPI61H; and the evaluation-chip board HS3800EBK61H

   NOTICE:
   For the updating of the versions earlier than the above, see Section 3 later.

2. **Descriptions of Revision**

   2.1 A Function Introduced
   The product can be updated using the AutoUpdate utility.

   2.2 A Problem Fixed
   The following problem has been fixed:
   If any conditions except free trace are set as trace conditions, an application error

arises.

3. For the Versions Earlier Than Those Listed Above

The products and versions listed in Section 1 above are all supported by the High-performance Embedded Workshop while the products with the versions earlier than those are supported by the HDI.
Though every product of the HDI version can be updated to V.6.00 Release 01, it will operates only with the High-performance Embedded Workshop if updated.

How to check for the version of your emulator software

In the High-performance Embedded Workshop, open the Tools menu and select the Administration command; the Administration dialog box opens. Next, open the Debugger Components folder in the Registered Components list box within the above dialog box, and read the version number of the E6000 Target Platform.
The products and versions listed in Section 1 are read as shown in Examples below

Examples:

H8/388R E6000 Target Platform V3.0.00 (for Item 1 in the list)
H8/3800 E6000 Target Platform V2.0.00 (for Item 3 in the list)

4. How to Update Your Product

Free-of-charge online update is available. If you are using any of the products and versions concerned, go through the following steps:

(1) Download the update program of the product from the download site (Global site).

(2) Execute the downloaded executable file.

NOTICE:

The above URL is that of our global site (in English). The regional sites will be opened two or three days after the above date.

The version of your product after update will be shown in the High- performance Embedded Workshop as follows:

Examples:

H8/388R E6000 Target Platform V.6.00.01
H8/3800 E6000 Target Platform V.6.00.01

5. Notice

If the update program is executed in the system where the High-performance Embedded Workshop V.4.00.02 or earlier resides, it will be upgraded to V.4.00.03.
