

To our customers,

Old Company Name in Catalogs and Other Documents

On April 1st, 2010, NEC Electronics Corporation merged with Renesas Technology Corporation, and Renesas Electronics Corporation took over all the business of both companies. Therefore, although the old company name remains in this document, it is a valid Renesas Electronics document. We appreciate your understanding.

Renesas Electronics website: <http://www.renesas.com>

April 1st, 2010
Renesas Electronics Corporation

Issued by: Renesas Electronics Corporation (<http://www.renesas.com>)

Send any inquiries to <http://www.renesas.com/inquiry>.

Not recommended
for new design

Notice

1. All information included in this document is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas Electronics products listed herein, please confirm the latest product information with a Renesas Electronics sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas Electronics such as that disclosed through our website.
2. Renesas Electronics does not assume any liability for infringement of patents, copyrights, or other intellectual property rights of third parties by or arising from the use of Renesas Electronics products or technical information described in this document. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
3. You should not alter, modify, copy, or otherwise misappropriate any Renesas Electronics product, whether in whole or in part.
4. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation of these circuits, software, and information in the design of your equipment. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from the use of these circuits, software, or information.
5. When exporting the products or technology described in this document, you should comply with the applicable export control laws and regulations and follow the procedures required by such laws and regulations. You should not use Renesas Electronics products or the technology described in this document for any purpose relating to military applications or use by the military, including but not limited to the development of weapons of mass destruction. Renesas Electronics products and technology may not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations.
6. Renesas Electronics has used reasonable care in preparing the information included in this document, but Renesas Electronics does not warrant that such information is error free. Renesas Electronics assumes no liability whatsoever for any damages incurred by you resulting from errors in or omissions from the information included herein.
7. Renesas Electronics products are classified according to the following three quality grades: “Standard”, “High Quality”, and “Specific”. The recommended applications for each Renesas Electronics product depends on the product’s quality grade, as indicated below. You must check the quality grade of each Renesas Electronics product before using it in a particular application. You may not use any Renesas Electronics product for any application categorized as “Specific” without the prior written consent of Renesas Electronics. Further, you may not use any Renesas Electronics product for any application for which it is not intended without the prior written consent of Renesas Electronics. Renesas Electronics shall not be in any way liable for any damages or losses incurred by you or third parties arising from the use of any Renesas Electronics product for an application categorized as “Specific” or for which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The quality grade of each Renesas Electronics product is “Standard” unless otherwise expressly specified in a Renesas Electronics data sheets or data books, etc.
 - “Standard”: Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; and industrial robots.
 - “High Quality”: Transportation equipment (automobiles, trains, ships, etc.); traffic control systems; anti-disaster systems; anti-crime systems; safety equipment; and medical equipment not specifically designed for life support.
 - “Specific”: Aircraft; aerospace equipment; submersible repeaters; nuclear reactor control systems; medical equipment or systems for life support (e.g. artificial life support devices or systems), surgical implantations, or healthcare intervention (e.g. excision, etc.), and any other applications or purposes that pose a direct threat to human life.
8. You should use the Renesas Electronics products described in this document within the range specified by Renesas Electronics, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas Electronics shall have no liability for malfunctions or damages arising out of the use of Renesas Electronics products beyond such specified ranges.
9. Although Renesas Electronics endeavors to improve the quality and reliability of its products, semiconductor products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Further, Renesas Electronics products are not subject to radiation resistance design. Please be sure to implement safety measures to guard them against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas Electronics product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
10. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. Please use Renesas Electronics products in compliance with all applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive. Renesas Electronics assumes no liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
11. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products, or if you have any other inquiries.

(Note 1) “Renesas Electronics” as used in this document means Renesas Electronics Corporation and also includes its majority-owned subsidiaries.

(Note 2) “Renesas Electronics product(s)” means any product developed or manufactured by or for Renesas Electronics.

HKT100***F/HKT100Y01F

μ-Chip (RFID)

REJ03P0002-0100
Rev.1.00
Feb 16, 2006

Overview

- HKT100***F/HKT100Y01F is RFID (Radio Frequency Identification) for 2.45 GHz.
- It has a unique ID inside, then it is applicable for management of individual object.

Note: "***" or "Y01" is a ROM code.

Feature

- Thin and small package: COA (Chip on Aluminum)
- Including unique μ-Chip ID which is not alterable
- Including a unique ID
- Communication without contact

Note: "μ-Chip" and the μ-Chip Logo are either registered Trademarks or Trademarks of Hitachi,Ltd. in Japan and in other countries.

Not recommend
for new design

Order Type Name

Order Type Name	Unit of Packaging	Packing Form	Unit of Order	Note
HKT100***F	8,000 min	Reel	75,000	
HKT100Y01F	10,000	Reel	10,000	

Outline and Mark

Not recommended for new design

Absolute Maximum Ratings

Item	Symbol	Specification			Unit	Condition	Remark
		Min	Typ	Max			
Storage temperature	Tstg	-30	—	75	°C		
Ambient operation temperature	Ta	0	25	40	°C		No condensation
Received power	Pr	—	—	13.8	dBm		

Electrical Characteristics

Measurement conditions:

Unless otherwise specified, Ta = 25°C, fc = 2.416 ± 0.010 GHz, reader power = 150 mW

Single-patch antenna, linearity polarized waves, clock cycle = 10 μs, clock duty cycle = 85%

Period of reading operations: 8 clock cycles, number of read bits: 128 bits

Item	Specification			Unit	Condition	Remark
	Min	Typ	Max			
Communication distance	6	—	15	cm	Note4	Note1
μ-Chip ID Check	—	Passed	—	—	EDC Check	Note2, Note3

Notes: 1. The distance at which the read μ-Chip ID value matches the indicated value and the EDC check is passed.

2. Verification value calculated from the read μ-Chip ID value.

3. Detail data of μ-Chip ID is describe on the commodity specification.

4. Relation between the inlet and antenna positions;

The planes of the copper-foil pattern for the antenna and the antenna itself should be parallel, the center of the inlet should be on the line that passes through the center of the antenna plane, and the inlet copper-foil pattern's longer side should be within the antenna's plane of polarization.

Reader Specifications and Type No.: MR-STD2

Item	Symbol	Specification	Unit	Remarks
Operation temperature	Ta	25	°C	
Carrier frequency	fc	2.416 ± 0.010	GHz	
Power	Pw	150	mW	
Clock cycle	Tclk	10	μs	
Clock duty ratio	duty	85	%	
Data read cycle	Tfm	8	Clock	
Data read bit count	Nb	128	Bits	

Cable Specifications

Item	Symbol	Specification	Unit	Remarks
Cable material	—	semi-rigid	—	
Total length of cable	L	20	cm	

Antenna Specifications and Type No.: PA1-2450AS

Item	Symbol	Specification	Unit	Remarks
Operation temperature	Ta	25	°C	
Polarization	—	Linear	—	
Number of patches	—	1	pcs	
Gain	—	7	dBi	

Dimension of Inlet Outline

Tape Dimensions

The products, each of which consists of an antenna and chip, are aligned and mounted on tape as shown in the figure below.

The chip-mounting section is punched through if the chip is defective.

Leader and Trailer Sections

This product includes leader and trailer sections that precede and follow the product section, i.e. the section that carries the chips, as shown in the figure below.

Punched Holes for Defective Part

Chips of defective parts will be punched through with the hole size of $\phi 2.0$ mm.

Jointed Segments of Tape

This product may include splices, where two tapes are pasted together, as shown below.

The number of splices is no more than 5 per reel (excluding the attachment of leader/trailer tapes ^{Note}).

Products covered by the splicing tape will be punched through as defective parts.

Dimension	Description	Specification
A	The antenna pitch at spliced part	2.375 ± 0.2 mm
B	Misalignment at spliced point	± 0.2 mm
C	Splicing tape width	10.0 ± 0.5 mm
D	Overflow of splicing tape	< 0.5 mm

Note: If leader/trailer parts are broken or spoiled by creases, the tape will be cut and jointed again.
 The attachment of leader/trailer will not be punched through as defective parts.

Packing Specifications

Packing Specifications and Quantity

- (1) As shipped, this product is packed in reel.
- (2) Quantity is 8,000 good pieces/reel Min.^{Note} However, quantity of HKT100Y01F is 10,000 good pieces/reel.
- (3) Quantity of punched hole for defective part is 10% or less of total quantity of antenna.

Note: Tapes can be joined to increase the quantity.

Example of Labeling

(1) → P I D 05480P10CV-001

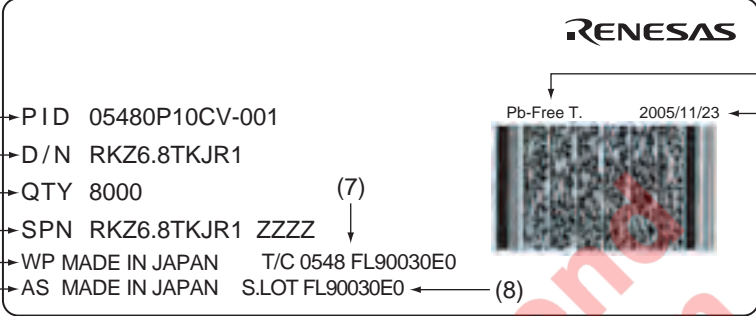

(2) → D / N RKZ6.8TKJR1

(3) → QTY 8000

(4) → SPN RKZ6.8TKJR1 ZZZZ

(5) → WP MADE IN JAPAN T/C 0548 FL90030E0

(6) → AS MADE IN JAPAN S.LOT FL90030E0

(9)

(10)

(7)

(8)

Notes: (1) Pack-ID
 (2) Device Name
 (3) Quantity
 (4) SAP Name
 (5) Country of Wafer Process
 (6) Country of Assembly
 (Japan → MADE IN JAPAN / Malaysia → MADE IN MALAYSIA)
 (7) Trace code
 (8) Lot code
 (9) Pb-Free indication (Only for Pb-free product)
 (10) Date of Label issuance

Form of Delivery

(1) Paper tape for spacers

Paper tape is inserted as a spacer for the product tape.

When wound onto the reel, the product tape is oriented so that the antenna face is on the inner side.

(2) Packing and reel dimensions

Appearance

There should not be any scratch or/and dirt that affect characteristics.

Quality Level

(Compliant with the JIS Z 9015)

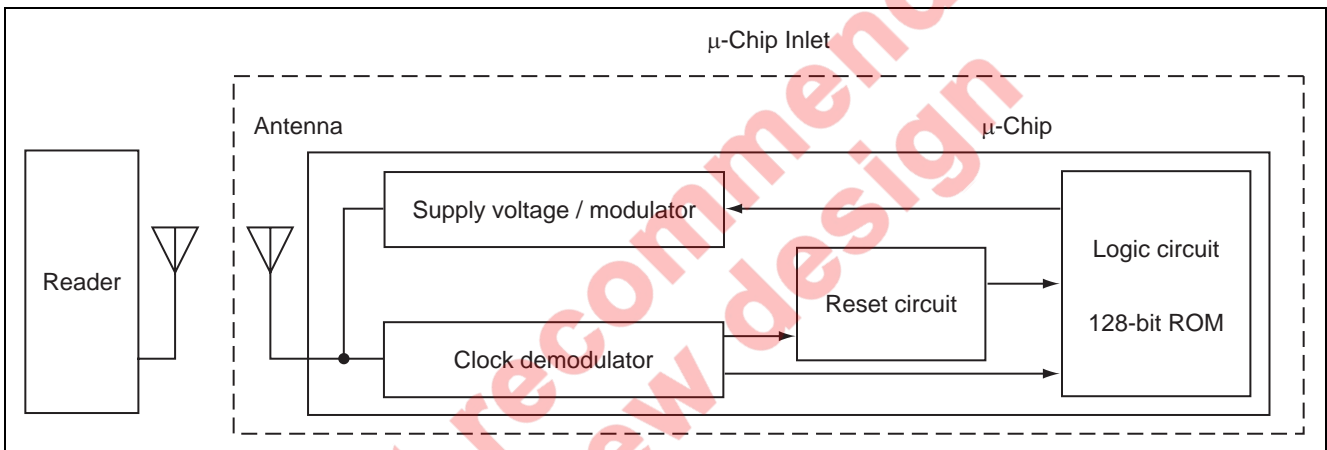

Electrical characteristics: AQL = 4.0%

Appearance: AQL = 4.0%

Precautions on Usage

1. Renesas Technology does not guarantee the product characteristics after it has been through assembly on the customer side.
2. Please refer to the mounting manual. (Document No.: REJ11P0002-0100)

System Outline

Function Blocks

Block Name	Description of Functions
Supply voltage/modulator	Generates power-supply voltage from carrier signals, varies the output impedance of the modulator circuit to match the input impedance of the antenna, and handles communications. The IC incorporates a power limiter for the protection of internal devices.
Reset circuit	Determines whether or not a clock signal is being supplied and cancels the reset mode in synchronization with the first clock cycle.
Clock demodulator	Demodulates the clock signal from the envelope signal of the received signal.
Logic circuit	The IC includes an on-chip 128-bit ROM from which data signals are sent out in synchronization with the clock signal.

Keep safety first in your circuit designs!

1. Renesas Technology Corp. puts the maximum effort into making semiconductor products better and more reliable, but there is always the possibility that trouble may occur with them. Trouble with semiconductors may lead to personal injury, fire or property damage. Remember to give due consideration to safety when making your circuit designs, with appropriate measures such as (i) placement of substitutive, auxiliary circuits, (ii) use of nonflammable material or (iii) prevention against any malfunction or mishap.

Notes regarding these materials

1. These materials are intended as a reference to assist our customers in the selection of the Renesas Technology Corp. product best suited to the customer's application; they do not convey any license under any intellectual property rights, or any other rights, belonging to Renesas Technology Corp. or a third party.
 2. Renesas Technology Corp. assumes no responsibility for any damage, or infringement of any third-party's rights, originating in the use of any product data, diagrams, charts, programs, algorithms, or circuit application examples contained in these materials.
 3. All information contained in these materials, including product data, diagrams, charts, programs and algorithms represents information on products at the time of publication of these materials, and are subject to change by Renesas Technology Corp. without notice due to product improvements or other reasons. It is therefore recommended that customers contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor for the latest product information before purchasing a product listed herein.
The information described here may contain technical inaccuracies or typographical errors.
Renesas Technology Corp. assumes no responsibility for any damage, liability, or other loss rising from these inaccuracies or errors.
Please also pay attention to information published by Renesas Technology Corp. by various means, including the Renesas Technology Corp. Semiconductor home page (<http://www.renesas.com>).
 4. When using any or all of the information contained in these materials, including product data, diagrams, charts, programs, and algorithms, please be sure to evaluate all information as a total system before making a final decision on the applicability of the information and products. Renesas Technology Corp. assumes no responsibility for any damage, liability or other loss resulting from the information contained herein.
 5. Renesas Technology Corp. semiconductors are not designed or manufactured for use in a device or system that is used under circumstances in which human life is potentially at stake. Please contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor when considering the use of a product contained herein for any specific purposes, such as apparatus or systems for transportation, vehicular, medical, aerospace, nuclear, or undersea repeater use.
 6. The prior written approval of Renesas Technology Corp. is necessary to reprint or reproduce in whole or in part these materials.
 7. If these products or technologies are subject to the Japanese export control restrictions, they must be exported under a license from the Japanese government and cannot be imported into a country other than the approved destination.
Any diversion or reexport contrary to the export control laws and regulations of Japan and/or the country of destination is prohibited.
 8. Please contact Renesas Technology Corp. for further details on these materials or the products contained therein.
