Option List HD6432126R,HD6432127R

Please check off the appropriate applications by \blacksquare , \times or \checkmark within \square and enter the necessary information.

(1) ROM size □ HD6432126R(W) : 32-kbytes	Department
\square HD6432127R(W) : 64-kbytes	Name
	ROM code Name
(2) System Oscillator(OSC1,OSC2)	LSI number
\Box Crystal oscillator f = MHz	(Renesas entry)
\Box External clock f = MHz	

(3) Power Supply Voltage/Maximum Operating Frequency

\Box Vcc = 4.5V to 5.5V (20 MHz max.)	
\Box Vcc = 4.0V to 5.5V (16 MHz max.)	
\Box Vcc = 2.7V to 5.5V (10 MHz max.)	
\Box Vcc = 4.0V to 5.5V (10 MHz max, L	ow EMI Noise version. Only Single-Chip Mode.)

Notes 1.Please select the power supply voltage/operating frequency version according to the power supply voltage used.

Date of order

Customer

Example: For use at Vcc = 4.5V to 5.5V/f = 10MHz

select Vcc = 4.5V to 5.5V(20MHz max.).

2. The power supply voltage and maximum operating frequency of the selected version should also be entered on the Single-Chip Microcomputer Ordering Specifications sheet.

(4) I^2C Bus Option
\Box I ² C bus used

-101	Jus us	scu
\Box I ² C t	ous no	ot used

- Notes 1. The "I²C bus used" option includes all cases where data transfer is performed via the SCL and SDA pins using the on-chip I²C bus interface function (hardware module). If the I²C bus interface function (hardware module) in used, various bus interface with different bus specifications and names are also included in "I²C bus used".
 - 2. When "I²C bus not used" is selected, values cannot be set in registers relating to the I²C bus interface (ICCR,ICSR,ICDR,ICMR). These register always read H'FF. With emulators, ZTAT and F-ZTAT versions, the "I²C bus used" option is selected. If the "I²C bus not used" option is selected, it is essential to ensure that "I²C bus interface related registers are not accessed.

For the Microcomputer Family item in 1.Basic Specifications in the Single-Chip Microcomputer Ordering Specifications Sheet *, please specify the appropriate item from the table below according to the combination of items 1 and 4 above. If the "I²C bus used" option is selected, please also specify this in Special Specifications(Product Specifications, Mark Specifications, etc....) in 1.Basic specifications.

* Please contact the relevant sales department for information on the Single-Chip Microcomputer Ordering Specifications Sheet.
