# Product Change Notice (PCN)

**Subject:** Wafer Fabrication Site Change for Listed Intersil Products

**Publication Date:** 1/7/2016
**Effective Date:** 4/7/2016

**Revision Description:**
Initial Release

**Description of Change:**
This notice is to inform you, as a result of declining volumes, Intersil has re-installed its proprietary P6 technology in the Intersil Palm Bay, Florida facility for wafer fabrication. This technology initially ran in Palm Bay from 2002 to 2004. Intersil has invested ~ $30M to upgrade the facility to add 200mm capability to match the current tools used, as well as in-line unit process and electrical parameters.

**Reason for Change:**
The move back to Palm Bay will position Intersil to guarantee continuity of supply to our customers as the volumes on the technology continue to decline. The site-specific process technology qualification has completed.

**Impact on fit, form, function, quality & reliability:**
The change will have no impact on the form, fit, function, quality, reliability and environmental compliance of the devices.

**Product Identification:**
There will be no change to the product data sheet specifications or external marking of the packaged products. Product affected by this change is identifiable via Intersil's internal traceability system.

**Qualification status:** Complete, see attached
**Sample availability:** 3/6/2016 for engineering samples; Specific product samples available with 4 month ARO

**Device material declaration:** Available upon request

*Questions or requests pertaining to this change notice, including additional data or samples, must be sent to Intersil within 30 days of the publication date.*

| For additional information regarding this notice, please contact your regional change coordinator (below) | | | |
