Reason for Change:

This notice is to inform you that Renesas will begin using Renesas Electronics (Penang) Sdn. Bhd., Malaysia (REPG) facility as an alternate test facility of the Listed Renesas QFN (Quad Flat No Lead) and TQFN (Thin Quad Flat No Lead) Package.

REPG is one of the Renesas's internal factory for high volume manufacturing testing. REPG is ISO9001:2015 and IATF16949:2016 certified. This action will expand current capabilities and capacities to optimize Renesas's ability to meet customer's delivery requirements.

Impact on fit, form, function, quality & reliability:

The change will have no impact on the form, fit, function, quality, reliability and environmental compliance of the devices Renesas supplied test software and product specific hardware were used at REPG.

- The test equipment validation involved the testing of control units and a correlation lot of RAA489000ARGNP#HA0 at current and new test site (REPG) respectively.
 - Control units were tested at the current test site and retested at REPG. Their performance were recorded and the results were analyzed to validate the setup.
 - Continuous monitoring and comparison of the data from lots processed at both sites were completed by the responsible product engineer.
- The visual / mechanical inspection, tape & reel operations are compliance to JEDEC industry standards.

Product Identification:

Product affected by this change is identifiable via Renesas's internal traceability system.
