

Price Increase Notice

Subject: Price Increase for the Listed Renesas Electronics America (REA) Radiation Hardened Space Products

Publication Date: 4/10/2019

Effective Date: 5/5/2019

To: Our Valued Customers

Effective May 5, 2019 prices for a subset of REA's (Intersil) legacy Radiation Hardened Space products will be increased by approximately 25% for the flight grade packaged products and 20% – 50% for the die and /PROTO products. Customer orders placed by August 1, 2019 with a customer requested delivery (CRD) date on or before August 1, 2019 will receive shipments at the present price. All new orders after May 5, 2019 with a CRD after August 1, 2019 will be at the new price. The price increase is limited to only those products listed in this notice.

Please note, the previous price increase for Radiation Hardened Space products was May of 2014. These adjustments to the prices are necessitated by increased materials, maintenance, and overhead costs which must be amortized over decreasing quantities of these products. We recognize that continuity of supply is very important, this increase will help reinforce the continued long term manufacture of these products. Renesas Electronics America Inc. intends to supply these products to our current customers for the foreseeable future.

Please forward this letter to people in your organization that may be impacted by these price increases.

Best Regards,

Michael D. Bennett
Sr. Director WW Distribution Operations
