Subject: **Data Sheet Specification Change for Intersil Product ISL21007***

This advisory is to inform you that Intersil has updated the data sheet specification for the listed ISL21007* products. The updates add information to address concerns with potential output voltage drift of the device when exposed to excessive heat or extended temperatures during the board mount operation and the effects of exposure to x-ray sources such as those used for post assembly inspection or airport screening machines. The updated data sheet is available on the Intersil web site at <http://www.intersil.com/data/fn/fn6326.pdf>. In addition, the data sheet accompanies this advisory as a separate file with the changes shaded in yellow.
