

RZ Ecosystem Partner Solution OneKiwi Secure RZ/V2H SOM

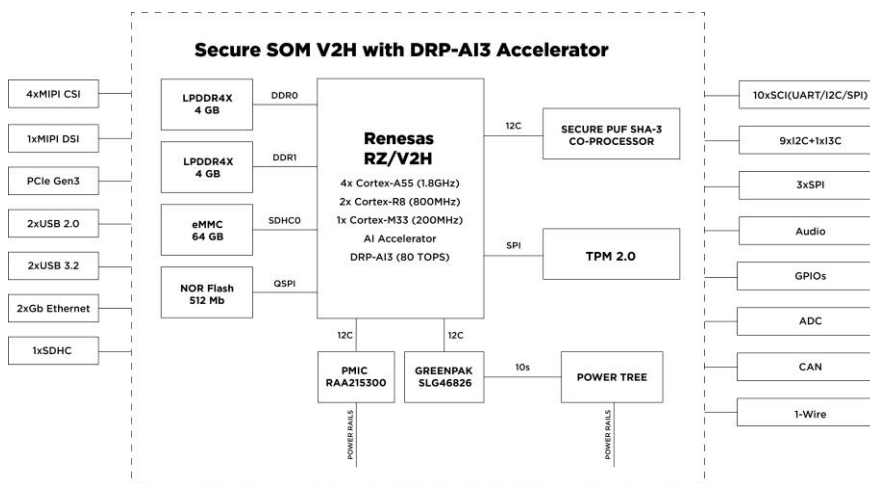

Solution Summary

The OneKiwi Secure V2H SOM (System on Module) is a high performance, cost-effective module designed for a range of AI driven vision applications. Powered by a [Renesas' RZ/V2H](#) processor. The SOM is also integrated with Advanced Security IP Module and PUF Secure SHA-3 coprocessor for local Artificial Intelligence (AI) driven data processing through running applications in a secured environment.

Features/Benefits

- RZ/V2H Quad core Cortex-A55[®] 1.8 GHz, Cortex-M33 CPU, Dual Cortex-R8[®], VPU, ISP, GPU
- DRP-AI3 as high-speed AI inference processing and excellent power efficiency
- Storage eMMC 64GB and RAM 8GB LPDDR4X
- Advanced Security IP Module protecting integrity and authenticity of embedded systems
- Small Form Factor by (W x L x H): 65mm x 40mm x 6mm
- Form factor can be customized to SMARC, OSM open standard
- Support additional hole for heatsink mounting
- Supports Yocto Linux and Ubuntu 22.04

Diagrams/Graphics

Target Markets and Applications

- Edge AI applications
- Smart parking lot
- Smart traffic monitoring
- Service robot
- Industrial drone
- Robot cleaner
- AI security camera
- Media streaming gateway
- Smart IoT gateway

OneKiwi is a fast-growing start-up company that specializes in designing and manufacturing high-performance SOMs (System on Module) and BMS (Battery Management System) for various applications, such as Industrial Automation, Robotics, IoT, AI-based Applications and more.

OneKiwi is committed to delivering high-quality, reliable, and innovative SOM solutions to its customers.

We are constantly improving its products and services and staying ahead of the latest trends and technologies in the embedded system industry. OneKiwi is your trusted and preferred SOM partner.

Prime focus areas are:

- System on Modules (SoMs) & Battery Management System (BMS) Solution Provider
- Independent Design House (IDH)
- Antenna performance Testing & Optimization

Mission and Vision

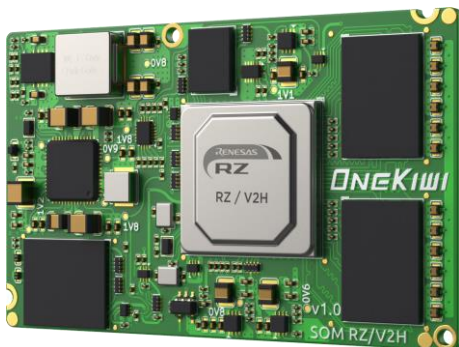

Mission: OneKiwi pioneers IoT & Embedded solutions, connecting the world for a smarter future. Our expertise drives innovation, creating secure and scalable IoT solutions for homes, industries, and beyond. Join us in shaping a connected tomorrow.

Vision: To be the preferred partner for startups and businesses, driving advancements in embedded technology, IoT, renewable energy, and smart city solutions, and fostering a collaborative ecosystem for innovation and growth.
