## 1. Affected product

μPD78F9850 (sample Ver2.2 or later)

## 2. Notification

When manipulating (writing, erasing, etc.) the flash memory of the target product using a flash memory writing tool (FL-PR3, etc.), the communication conditions listed below cannot be used.

Note this point when manipulating a flash memory.

Table) Communication Conditions That Cannot Be Used  
During Flash Memory Manipulation

Communication Mode	Communication Speed	Operating Clock Frequency of Target Device (fx)
UART	4800 bps	8.0 MHz

## 4. Modification schedule

This restriction applies to Ver.2.2 or later samples, and mass-produced models.
