1.3 Details

Some modules included with RX Driver Package Ver.1.43 do not contain config.h.

Only the module file (.zip) which included in RX Driver Package Ver.1.43 doesn't contain config.h, but individual package of each module has it.

1.4 Workaround

Please download the individual package of the corresponding module and use it.

Individual packages can be downloaded from the link in the FIT module list (XLSX, PDF).

https://www.renesas.com/software-tool/fit-information

1.5 Permanent Measures

Please use RX Driver Package Ver.1.44.

After the release of RX Driver Package Ver.1.44, Ver.1.43 will be discontinued on the web publishing.
