RENESAS Tool News

The AutoUpdate Utility Revised to V.1.02.00

We have revised the AutoUpdate utility from V.1.01.00 to V.1.02.00.

1. Descriptions of Revision

1.1 Functions Introduced and Improved
   (1) Improved are items and contents in several dialog boxes displayed
       when the AutoUpdate wizard is stepped through.
   (2) In the Configure AutoUpdate dialog box, the method of downloading
       application programs can be chosen between "Renesas Tools Web Site"
       and "Local or Network Drive."

1.2 Problems and Errors Corrected

   The following problems and errors have been corrected:
   (1) In the Select Applications dialog box, the list of applications
       to be updated and the characters displayed at the bottom of the
       dialog box are overlaid in some cases.
   (2) In the function for displaying update information on the system
       tray, update information on applications not to be updated is
       provided.
   (3) Contents of the help for each button in the Select Applications
       dialog box and the Select Updates dialog box.

2. How to Update Your Utility

   Update yours using your AutoUpdate utility itself. The update service
   will be available on and after December 20.
   You are also able to update yours by downloading the update program
   from the downloa site.
