AutoUpdate Utility Revised to V.1.04.00

We have revised AutoUpdate Utility from V.1.03.00 to V.1.04.00.

1. Description of Revision
A function for detecting differential update programs has been introduced.

2. How to Update Your Product
Update your AutoUpdate Utility using itself. This update service is being provided on and after July 5.
Also you are able to update yours by downloading the update program from the Web site shown below and executing it. This Web site will be opened from July 5 on.

  http://www.renesas.com/hew_download

The above URL is that of our global site (in English).

3. Notice
We are going to begin supplying differential update programs in this July. So if you are using AutoUpdate Utility V.1.03.00 or earlier, be sure to update it to V.1.04.00.

Attention:
Change in Download Function and Product Information Pages

Since June 1st, 2007, download data and product information have only been updated on the Renesas global web site (http://www.renesas.com/homepage.jsp), not our regional web sites. For the latest versions of download data and product information, please visit our global web site.
This is a temporary situation and regional web sites will be updated once again by the end of August.

Technical documentation and Tool News newsletter are not effected by this temporary situation and you can still find the latest support information on both our regional and global web sites.
Thank you for your understanding.
