Device Information (Managed by CS+) for RL78 Family Revised to V3.00.01

We will be revising the device information file (managed by CS+) for the RL78 family of MCUs and accordingly will change the version number from 3.00.00 to 3.00.01.

1. Product and Versions to Be Updated

- (1) Device information file managed by CubeSuite+ for the RL78 family of MCUs (CubeSuite+ DevInfo_RL78_78K)
V1.00.18 or earlier
- (2) Device information file managed by CS+ for the RL78 family of MCUs (CS+ for CA,CX Device Information for RL78)
V3.00.00

Check your version number of "CubeSuite+ DevInfo_RL78_78K" or "CS+ for CA,CX Device Information for RL78" with reference to the procedure described under the heading "Components" at the URL below.

https://www.renesas.com/cs+_ver

2. Description of Revision

(1) Correction to Pin Assignment Information

The pin assignment information for the following MCUs will be corrected.

- RL78 family, RL78/F13 group
- RL78 family, RL78/F14 group

(2) Correction to Debugging Information

The debugging information related to the MCUs below will be corrected.

- RL78 family RL78/G1G group

For more information, refer to the URL below (the information will be on the page from December 5).

https://www.renesas.com/cubesuite+/CSP_DevInfo_RL78.html

3. Updating Your Product

Online updating is available free of charge. To update either your commercial edition or evaluation edition of CS+, use either of the following methods.

3.1 For CS+ V3.00.00 or Later

To update your program, use either of the following methods:

(1) On the Start menu, select Programs and then Renesas Electronics CS+ to start the Update Manager.

This service will be available from December 5.

Note: If your CS+ has been launched with rapid startup enabled, exit the CS+ once, and then run the Update Manager. If the CS+ is resident in the notification area of Windows (system tray) due to rapid startup, an error occurs and produces the following message:

M0120001

Installation is suspended because "CubeSuite+W.exe" is running.

It will be resumed next time you start the tool.

(2) Download and install V3.00.01 of device information file managed by CS+ for the RL78 family of MCUs from the following URL.

https://www.renesas.com/cs+_download

The above program will be available from December 5.

3.2 For CubeSuite+ V2.02.01 or Earlier

Please download and install the evaluation edition of CS+ V3.00.00 from the following URL:

https://www.renesas.com/cs+_download

Then, update your program by using the method in 3.1 (1) or (2) above.
