

Hardware Tools Released in the Last Half of May 2007

We released the hardware tools described below in the first half of this May.

1. For the M32C/80 Series, M16C Family

- (1) M30850T3-CPE: A Compact Emulator for the M32C/80, M32C/84, M32C/85, M32C/86, and M32C/8A MCU Groups

This compact emulator, provided with real-time trace capabilities, supports the MCUs operating at frequencies up to 32 MHz. For details of the product, visit the Web site.
