

RENESAS TOOL NEWS on April 1, 2008: 080401/tn3

MCUs Added to the Support Lines of the Emulation Probe --R0E521000EPB00--and the Compact Emulator--R0E521000CPE00-- for the R8C/Tiny Series of MCUs

The MCUs coming with 32-KB ROM of the R8C/28 and R8C/29 groups have become supported by the emulation probe--R0E521000EPB00--and the compact emulator --R0E521000CPE00--for the R8C/Tiny series of MCUs.

1. Descriptions

The R0E521000EPB00 emulation probe and the R0E521000EPB00 compact emulator have started supporting the MCUs coming with 32-KB ROM (the J and K versions) of the R8C/28 and R8C/29 groups.

To emulate systems designed with these MCUs, their respective MCU files and release notes are necessary. An MCU file contains information specific to the corresponding MCU, and a release note does information on debugging and evaluating MCU-based target systems.

For how to obtain MCU files and release notes, see Section 2.

To connect the emulation probe or compact emulator with the user system, use the converter board--R0E521174CSJ00--for the 20-pin 0.65-mm-pitch LSSOP package. For details of this converter board, see its user's manual on the Web page at

http://documentation.renesas.com/eng/products/tool/rej10j0847_r0e521174csj00_u.pdf

(a 228-KB PDF file of 4 pages).

The above URL is that of our global site (in English).

2. How to Obtain MCU Files and Release Notes

We supply you with the MCU files for the MCUs with 32-KB ROM of the R8C/28 and R8C/29 groups and the release notes for these MCUs in which information on debugging and evaluating target systems are described

We prepare the release note and the installer of the MCU files for the R0E521000EPB00 and the R0E521000CPE00 each, as listed below. Download the release note and the installer of the MCU files you want from the Web page at

http://tool-support.renesas.com/eng/toolnews/download/r8c26_29.htm
(available on and after March 7, 2008).

Then execute the downloaded installer to add the newly-supported MCUs' MCU files to your emulator debugger.

(1) For emulation probe R0E521000EPB00

Installer: MCU_Files_install_epb_R8C_26-29.exe

Release note: rej10j0894_r0e521000epb00_s.pdf

(2) For compact emulator R0E521000CPE00

Installer: MCU_Files_install_cpe_R8C_26-29.exe

Release note: rej10j0863_r0e521000cpe00_s.pdf

NOTICE:

Be sure to read through the release note for your system before using the R0E521000EPB00 and/or R0E521000CPE00.
