# AI Navigator V1.3.0: IDE for AI Applications

R20TS1129EJ0100
Rev.1.00
May 20, 2025

## Outline

AI Navigator, IDE for AI applications, has been updated from V1.2.0 to V1.3.0.

## 1. Applicable Product

V1.2.0 of AI Navigator, IDE for AI applications

## 2. Description

For details of the update and supported devices, refer to the release note at the link below.

- AI Navigator V1.3.0 Release Note
  https://www.renesas.com/document/rln/ai-navigator-v130-release-note

The main changes are as follows.

### 2.1 Addition of supported devices

Support for the following device group has been added.

RZ Family: RZ/V2N Group

### 2.2 Functional improvements

- Addition of IDEs
  RZ/V2L AI Software Development Kit (SDK) v5.00 and RZ/V2N AI Software Development Kit (SDK) v5.00 are now supported. In the same manner as the case of use with RZ/V2H device, you can develop AI applications in Linux environment which has been customized on the basis of source code provided by the RZ/V AI SDK.
- Enhanced conversion of AI models to executable files
  DRP-AI TVM v2.3.0 is now supported. Forcibly halting conversion of AI models to executable files is possible even while conversion is in progress.

## 3. Obtaining the Product

Install AI Navigator by selecting [Help] > [Install Renesas IDE Features...] in e$^2$ studio. Read the AI Navigator Quick Start Guide at the link below to learn how to install and use AI Navigator.
