Development Assistance Tool for Segment LCD

Outline

QE for Segment LCD[RL78], a development assistance tool for segment LCD, has been updated from V1.0.0 to V1.1.0.

1. Products to Be Updated

V1.0.0 of QE for Segment LCD[RL78], a development assistance tool for segment LCD

2. Description

The following sections cover the main enhancements. For details of the update and how to install the product, refer to the release note at the link below.

- QE for Segment LCD[RL78] V1.1.0 Release Note

<https://www.renesas.com/document/rln/qe-segment-lcdrl78-v110-release-note>

2.1 New Features

- Support software debug feature

When there is no target board equipped with Segment LCD due to being under development, you can debug your program by simulating the LCD view with this product.

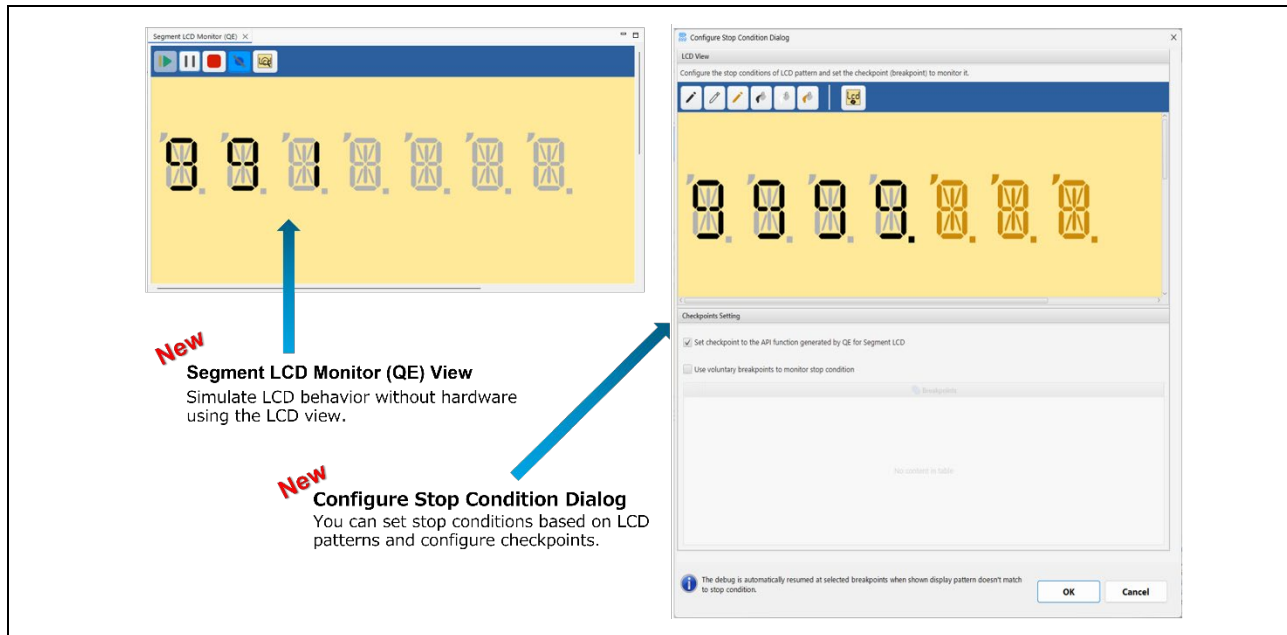

Figure 1 Support software debug feature :
Segment LCD Monitor (QE) View and Configure Stop Condition Dialog

- Add new components

Add 3 new components shown below to component list in LCD Setting View.

Figure 2 [LCD Setting View] Components List : new components

- Add Import LCD setting feature

Add [Import LCD Setting] features to LCD Setting View. You can reuse the existing pin settings created in other projects to target projects.

3. Obtaining the Product

Download the installer for QE for Segment LCD[RL78] V1.1.0 from the following URL:
