

PRODUCT CHANGE NOTICE

Wafer Fabrication Site Change for Listed Intersil Products

**Refer to:
PCN14036**

Date: July 09, 2014

July 09, 2014

To: Our Valued Intersil Customers

Subject: **Wafer Fabrication Site Change for Listed Intersil Products**
Palm Bay, Florida

This notice is to inform you that due to declines in volume at IBM and risk of continuity in supply, Intersil is re-installing its proprietary P6/P6S technology in the Intersil Palm Bay, Florida facility for wafer fabrication. This technology initially ran in Palm Bay from 2002 to 2004. Intersil has invested ~ \$30M to upgrade the facility to add 200mm capability to match the current tools used, as well as in-line unit process and electrical parameters. The move back to Palm Bay will position Intersil to guarantee continuity of supply to our customers as the volumes on the technology continue to decline. The site-specific process technology qualification is in progress and scheduled to complete October 31, 2014.

The Intersil Palm Bay, Florida facility is an ISO 9001:2008, ISO/TS 16949:2002 and QML certified wafer fabrication facility. The product and site qualification plans are designed using JEDEC and other applicable industry standards to confirm there is no impact to form, fit, function, or interchangeability of the product. A summary of the qualification plan is included for reference. The qualification results will be available for review upon completion. The remainder of the manufacturing operations (package assembly, package electrical testing, shipment, etc.) will continue to be processed to previously established conditions and systems.

There will be no change to the product data sheet specifications or external marking of the packaged products. Product affected by this change is identifiable via Intersil's internal traceability system.

Intersil will take all necessary actions to conform to agreed upon customer requirements and to ensure the continued high quality and reliability of Intersil products being supplied. Customers may expect to receive product manufactured from either the current or the newly qualified site upon successful completion of qualification activities and customer approval.

If you have concerns with this change notice, Intersil must hear from you promptly. Please contact the nearest Intersil Sales Office or call the Intersil Corporate line at 1-888-468-3774, in the United States, or 1-321-724-7143 outside of the United States.

Regards,

Jeffrey Touvell
