The Device File Updater Specific to the C Compiler Package for the M16C Series and the R8C Family (M3T-NC30WA) Revised to V.1.14

We have revised the device file updater specific to the C compiler package for the M16C series and the R8C family

(M3T-NC30WA) from V.1.13 to V.1.14. For an overview of device file updaters, see at:

<https://www.renesas.com/dfu>

The above URL is one of our global sites.

1. Supporting C Compiler and Its Versions

The C Compiler Package for the M16C Series and the R8C Family
(M3T-NC30WA)

V.5.42 Release 00 or later (including V.6.00 Release 00)

Note, however, that to install the device file updater V.1.14 on your PC, you must install the V.5.45 Release 00 or later product (including V.6.00 Release 00) of the above compiler package in advance.

For details, see Note 2 at the end of "Compiler Packages" on the Web Page at:

<https://www.renesas.com/dfu>

The above URL is one of our global sites.

2. Descriptions of Revision

In Device File Updater V.1.14, the following CPU groups have been

added to the CPU groups supported by V.1.13:

R8C family:

R8C/34P and R8C/34R

You can check the list of CPUs that can be added by the device file updater in "The Product Versions and the Added CPU Types" provided at the following Web page:

<https://www.renesas.com/dfu>

This Web site will be updated on June 5.

The above URL is one of our global sites.

3. How to Obtain the Product

Download the installer of the device file updater V.1.14 for the C compiler package for the M16C series and the R8C family (M3T-NC30WA) from:

https://www.renesas.com/dfu_download

Then install it. The installer will be published on the Web site on June 5.

The above URL is one of our global sites.
