## **e2 studio Integrated Development Environment V4.1.0.018 Update**

We are updating the e2 studio integrated development environment (IDE) from V4.0.2.008 to V4.1.0.018

For an overview of the product, see the following page:

<http://www.renesas.com/e2studio>

---

### 1. Product and Versions to be updated

e2 studio V4.0.0.26, V4.0.1.007 and V4.0.2.008

You can check the version number of your e2 studio in the dialog box opened by selecting "About e2 studio" from the "Help" menu of e2 studio.

### 2. Description of Revision

#### 2.1 Modification to Device information

RL78 family: SFR information of RL78/I1D group is modified.

#### 2.2 Adding functions

(1) Smart Browser feature supports RZ family devices.

(2) Renesas Common Project format file export is available for CC-RL (C Compilers for RL78 Family) projects.

(3) FIT configurator is improved.

Visit here for more details about FIT:

<http://www.renesas.com/products/mpumcu/rx/child/fit/index.jsp>

(4) Debugger features are improved.

- E2 emulator Lite supports RL78 family devices.

- Multi-core debugging is available for RZ family RZ/T1 group.

- Image Data Viewer shows address and value at specified coordinate.

## 2.3 Addition of basic facility

- Support for Windows 10 (32- and 64-bit) is added.

## 3. Updating Your Product

### 3.1 Online updating

Select "Check for Updates" from the "Help" menu of e2 studio for the automatic updating.

The service will be available from October 20th, 2015.

#### Note:

Auto-updating cannot handle updating to V4.0.0 from V3.1 and earlier versions. Newly install e2 studio in the way described under 3.2.

### 3.2 Downloading the installer file from the Web site

Download an e2 studio installer file from the following Web site and install it.

The revision V4.1.0.018 will be published on October 20th, 2015.

Web installer V4.1 will also be available on October 20th, 2015.

e2 studio download site:

[http://www.renesas.com/e2studio\\_download](http://www.renesas.com/e2studio_download)

#### Note:

There are two types of installer, for on-line called "Web installer" and for offline.

Please do not use older installers than V4.1 for on-line installation.

For environments without internet connection, use the offline installer.

For details, see the instructions on the download site above.
