A Note on Using Emulator Debuggers M3T-PD32RM and M3T-PD32R

Please take note of the following problem in using the M3T-PD32RM and M3T-PD32R emulator debuggers for the M32R family MCUs:

- On using the Memory window
-

1. Products and Versions Concerned

M3T-PD32RM V.2.00 Release 1

M3T-PD32R V.4.00 Release 1

2. Description

If the Memory window remains minimized immediately after launching the debugger, restoring or maximizing it causes the debugger to terminate unsuccessfully.

3. Workaround

When you restore or maximize the minimized Memory window immediately after launching the debugger, close once and then reopen it.

4. Schedule of Fixing the Problem

We plan to fix this problem in our next release of the products.
