E8a Emulator Software Revised to V.1.01 Release 02

We have revised the emulator software for the E8a on-chip debugging emulator from V.1.01 Release 01 to V.1.01 Release 02.

1. Descriptions of Revision

1.1 Emulator Debugger Added

The H8S/Tiny E8a Emulator Debugger V.1.00.00 has been added to the emulator debuggers included in E8a Emulator Software.

The others have not been revised.

- R8C E8a Emulator Debugger V.1.01.00
- M16C E8a Emulator Debugger V.1.01.00
- M32C E8a Emulator Debugger V.1.01.00
- 740 E8a Emulator Debugger V.1.01.00
- H8 Tiny/Super Low Power E8a Emulator Debugger V.1.01.02
- H8S/Tiny E8a Emulator Debugger V.1.00.00 (New)

1.2 Supported MCUs Increased

The following MCUs have been added to the support line:

H8S/Tiny series

H8S/20103 group: H8S/20103F and H8S/20102F

H8S/20203 group: H8S/20203F and H8S/20202F

H8S/20223 group: H8S/20223F and H8S/20222F

2. How to Update Your Product

Free-of-charge online update is available. Update yours using update program; download the update program from the Web site at

http://www.renesas.com/en/e8a_download

and execute it.

The Web site is available on and after January 9.

The above URL is one of our global site (in English).

NOTICE:

This latest version is the debugger package edition; that is, it includes only the H8S/Tiny E8a emulator debuggers and the user's manuals of them and does not come with High-performance Embedded Workshop. So the product must be installed in the development environment where High-performance Embedded Workshop V.4.04.01 or later has already been installed.
