

RENESAS TOOL NEWS [September 1, 2003: RSO-M3T-MR32R-030901D]

Real-Time OSes M3T-MR32R Upgraded to V.3.50 Release 2

We have upgraded the M3T-MR32R real-time OSes for the M32R family MCUs as follows:

- the M3T-MR32RK real-time OS development kit: from V.3.50 Release 1 to V.3.50 Release 2
 - the M3T-MR32RS real-time OS mass-production contract: from V.3.50 Release 1 to V.3.50 Release 2
-

1. Descriptions of Upgrade

1.1 Function Introduced

- (1) The `def_cyc` system call can be issued both from the task and from the handler.

1.2 Problem Fixed

The following known problem has been fixed:

- (1) On using the `chg_pri` and `ichg_pri` system calls for changing the priority of a task
For details, see RENESAS TOOL NEWS "A Note on Using Real-Time OSes M3T-MR32R" issued on August 1, 2003.

2. How to Upgrade the Current Products and Order the Upgraded Ones

The M3T-MR32R is a product for special users.

If you need the latest version of Real-time OS with online, please contact csc@renesas.com.
