RENESAS Tool News

Simulator Debuggers M3T-PD32RSIM, M3T-PD308SIM, M3T-PD30SIM, M3T-PD79SIM, M3T-PD77SIM, and M3T-PD38SIM Upgraded

We have upgraded our simulator debuggers to the following versions:

- M3T-PD32RSIM V.2.10 Release 1A for the M32R family
- M3T-PD308SIM V.3.20 Release 1A for the M32C/80 and M16C/80 series
- M3T-PD30SIM V.5.20 Release 1A for the M16C/60, M16C/30, M16C/Tiny, M16C/20, M16C/10, and R8C/Tiny series
- M3T-PD79SIM V.3.20 Release 1A for the 79xx series
- M3T-PD77SIM V.3.10 Release 1A for the 77xx series
- M3T-PD38SIM V.2.10 Release 1A for the 740 family

1. **Summary**

   We started supplying simulator debuggers bundled with C compilers and assemblers for the 8-, 16-, and 32-bit MCUs on this April 1. According to this change of shipment, we upgraded these simulator debuggers.
   For details of bundling, see RENESAS TOOL NEWS "Simulator Debuggers Bundled with C Compilers and Assemblers for the 8-, 16-, and 32-Bit MCUs" issued on April 1, 2004, in this series of news.

2. **Description**

   Each of the upgraded simulator debuggers, subject to no changes of its functions, can be installed using the license ID of the corresponding C compiler and assembler.
   Note, however, that our C compilers and assemblers cannot be installed using the license ID of any simulator debugger.

3. **Online Upgrade (Without Charge)**

   Please download the upgraded product you want from **HERE**.

4. **First ordering**

If you have been using a partner-made C compiler and assembler and place an order for a Renesas-made simulator debugger only, please furnish the following information on it to your local Renesas Technology sales office or distributor:

Product Type :

Version No.   :

Release No.   :

Comment   :   WIN

Note, however, that though this CD-ROM contains a C compiler, an assembler, and a simulator debugger, it comes with the license ID for installing only the simulator debugger.
