QE for BLE[RA] V1.1.0:

Development Assistance Tool for Bluetooth® Low Energy

Outline

We have updated the products in the title as follows:

- QE for BLE[RA], the development assistance tool for Bluetooth® low energy: From V1.0.0 to V1.1.0

This product is available free of charge.

1. Version to Be Updated

- QE for BLE[RA] V1.0.0

How to check the version: In e² studio, select [Help] and then [e² studio Installation Details], open the [Installed Software] tab, and then check the version of Renesas QE for BLE[RA].

2. Description of Revision

The major revision points are as follows: For details and how to install the product, see the following release note.

- QE for BLE[RA] V1.1.0 Release Note

<https://www.renesas.com/search/keyword-search.html#genre=document&q=r20ut4847>

2.1 Improvements to Functionality

- Integrated development environment e² studio 64-bit version is now supported.

From this version, the product can be used in the e² studio 64-bit version (e² studio 2020-07 or later) environment. Note that e² studio 32-bit version is no longer supported. Install the QE for BLE[RA] V1.1.0 or later in an environment in which the e² studio 2020-07 or later is installed.

3. Operating Environment

- Integrated development environment e² studio 2020-07 or later

Note that installing the Flexible Software Package (FSP) V1.3.0 or later is required.

You can download the installer that allows you to easily install the e² studio and FSP from the following URL:

<https://info.renesas.com/en-fsp-download>

For details about how to use this product, see the QE item from the [Help] menu of e² studio.

4. Obtaining the Product

Download the installer for QE for BLE[RA] V1.1.0 from the following URL:
