V850 Device Files for the Project Manager PM+ Revised

The device files for the project manager PM+ have been revised as follows:
Two V850 device files for the project manager PM+ have been revised as follows:

- The device file DF703500 from V1.01 to V2.00
- The device file DF703738 from V2.00 to V2.10

---

1. Descriptions of Revision

1.1 DF703500
  Supports the following MCU:
    - uPD703590 (in the group of V850E2/ME3)

1.2 DF703738
  Supports the following MCUs:
    - uPD70F3841, uPD70F3842, uPD70F3843, and uPD70F3844
       (in the group of V850ES/Jx3-L)

2. Updating Your Files

  Online update is available free of charge. To update yours, follow
  these steps:
  (1) Click Version Upgrade Service [Version-up service] on the Web page at:
        http://tool-support.renesas.com/eng/toolnews/download/exel/download.html
  (2) Click "V850"; then on the page that appears, click a name of
     the newly supported MCUs.
  (3) At the page that appears, download the update program of the
     device file involved (a ZIP. file.) and the user's manual.
     They have been published on this September 15.
  (4) Decompress the downloaded ZIP. file and follow the instructions
     described in Chapter 4, Installation, of the user's manual
     to update yours.
