RENESAS Tool News

DocumentUpdater Revised to V.3.00.00

We have revised DocumentUpdater from V.2.00.01 to V.3.00.00.
This utility searches the database on Renesas Web for documents related to the specified MCU and provides the search results in a list.

1. Descriptions of Revision
1.1 Functions Improved

(1) Whether to access to the Internet or not and how to view PDF files are selectable when invoking the utility.

(2) The tutorial for beginners is provided at invoking; however, it can be configured not to be provided when invoked the second time and later.

(3) The size of windows has been made variable.

(4) The total number of retrieved documents is displayed in every document tab.

(5) In the previous versions, all the downloaded documents have been displayed in the Download lists tab only. In V.3.00.00 and later, they can be displayed the classified tabs for document types.
 All (all documents which you have downloaded to your local PC.)
 MPU and MCU documents
 Technical updates
 Application notes
 Tool documents

(6) In the previous versions, it is necessary to invoke another DocumentUpdater program in order to switch information on an MCU to the one on another (more than one DocumentUpdater program can be invoked at a time).
 In V.3.00.00 and later, the switching is capable by pressing the Chang MPU/MCU button even if a single DocumentUpdater program is running

For details of DocumentUpdater visit the Web site at
http://www.renesas.com/du

1.2 Problem Fixed

The following problem has been fixed:

To download the sample code (a ZIP file) included in the application note through the Internet, you are requested to enter your ID and password to MY RENESAS, our user registration system on the Web, from April 2008. Because DocumentUpdater has not accommodated the change made to the system, downloading the sample code using DocumentUpdater is not allowed, resulting in the following error message being dispatched:

Unable to complete ZIP file download.
Please confirm network connection.

2. How to Update Your Product

Free-of-charge online update is available. Use AutoUpdate Utility; otherwise download the update program of the product from the Web site at

http://www.renesas.com/du_download

and execute it. This site will be opened at the end of June.
