RENESAS Tool News

Notification of Fixed Problems in Integrated Development Environment High-performance Embedded Workshop Used in Combination with the Upgraded M3T-NC30WA

We notify you of the fixed problems in the High-performance Embedded Workshop, an integrated development environment, used in combination with the M3T-NC30WA V.5.30 Release 1 (upgraded in March 16, 2004).

1. **Descriptions**

   The following known problems in the High-performance Embedded Workshop have been fixed in the M3T-NC30WA V.5.30 Release 1 (upgraded in March 16, 2004):

   (1) On using build options
   For details, see RENESAS TOOL NEWS "A Note on Using Integrated Development Environment High-performance Embedded Workshop" issued on March 16, 2004.

   (2) On the Create New Project Workspace function
   For details, see RENESAS TOOL NEWS "Notes on Using Integrated Development Environment High-performance Embedded Workshop Bundled with the M3T-NC30WA V.5.20 R1 C Compiler" issued on December 16, 2003.

   (3) On scanning the dependencies of header files on an assembler source file
   For details, see RENESAS TOOL NEWS "A Note on Using Integrated Development Environment High-performance Embedded Workshop (On the File Dependencies Function)" issued on November 1, 2003.

   (4) On using the Import Makefile function
   For details, see RENESAS TOOL NEWS "A Note on Using Integrated Development Environment High-performance Embedded Workshop" issued on October 16, 2003.

   For details of the upgraded M3T-NC30WA V.5.30 Release 1, see RENESAS TOOL NEWS "C Compiler M3T-NC30WA Upgraded to V.5.30 Release 1" issued on March 16, 2004.
