[Notes]

Renesas Flash Programmer V3.01.00

Outline

When using the Renesas Flash Programmer V3.01.00, a software tool for programing flash memory, note the following point.

1. Errors occurring during installation from a commercial edition CD

1. Errors Occurring during Installation from a Commercial Edition CD

1.1 Applicable product and version

Commercial edition CD of Renesas Flash Programmer (Part No.: R0C00000FDW13R) V3.01.00
Remarks: This note does not apply to commercial edition CDs whose version is not V3.01.00.
In addition, this note does not apply to any version of evaluation edition or update files released on the Web.
1.2 Details

If the product is installed from the commercial edition CD indicated in section 1.1 to 64-bit Windows OS, the following error might occur during installation of the USB driver for Renesas MCU tools (for E2 emulator Lite). If the error does not occur, installation was successful.

Error (E0140021) Some installations have failed. The installations of the specified tools are not completed.

Remarks: This note does not apply to installation to 32-bit Windows OS.

1.3 Schedule for Fixing the Problem

Download and install the latest update file from the Web site at the following URL:
