3. Updating Your Product

The method of updating differs with the product you are using.

Refer to the following description for the details. Both methods of updating are free of charge.

3.1 Updating the CS+ Code Generator for RX

To update either your commercial edition or evaluation edition of CS+, use one of the following methods.

If your product is CS+ V3.00.00 or an earlier version, you will also need to update your CS+ to V3.01.00 in advance.

Please download and install the evaluation edition of CS+ V3.01.00 from the following URL:

(1) Use the Update Manager

On the "Start" menu, select "Programs" and then "Renesas Electronics CS+" to start the Update Manager.

This service will be available from August 07, 2015.

Note:

If your CS+ has been launched with rapid startup enabled, exit the CS+ once, and then run the Update Manager.

If the CS+ is resident in the notification area of Windows (system tray) due to rapid startup, attempting to run the Update Manager produces an error and the following message.

M0120001

Installation is suspended because "CubeSuiteW+.exe" is running.
It will be resumed next time you start the tool.

(2) Download the installer for the product from our Web site

Download CS+ Code Generator for RX V1.08.00, from the URL below to install the program.

The program will be available from August 07, 2015.
