Release of Parameter Files for the PG-FP5 Flash Memory Programmer

We will release new parameter files for use with the PG-FP5 flash memory programmer. These parameter files are text files which contain the information required to use the PG-FP5 for writing to certain target MCUs.

Refer to the URL below for an overview of the PG-FP5.

https://www.renesas.com/pg_fp5

1. New Parameter Files

- RX family

PR5-R5F5130 V1.00 (for the RX130 group)

Supported MCUs: R5F51303 and R5F51305

2. Obtaining the Product

To obtain parameter files, download those you need from the download site below. The above information will be available from December 7.

https://www.renesas.com/pg_fp5_download

Refer to chapter 3 of the PG-FP5 User's Manual for details of how to install the file.

3. Required Firmware, FPGA Data, and Programming GUI

Obtain the release notes for the parameter files from the documentation page at the URL given below and consult them to confirm that you have the firmware, FPGA data, and programming GUI versions required to use the parameter files.

The above information will be available from December 7.
