RENESAS Tool News

Schedules of Switching the Flash Programmer HS0008EAUF1H to the E8a Emulator and Discontinuing HS0008EAUF1H Modified

We notify you that the schedules of switching the flash programmer HS0008EAUF1H to the E8a emulator and discontinuing HS0008EAUF1H have been modified.
This flash programmer is used to program flash memory on MCUs of SuperH, H8SX, H8S, and H8 families.

1. Description

On June 1, 2009, we notified you that the flash programmer HS0008EAUF1H was going to be switched to the E8a emulator. Now, the schedules of this switching have been modified as described below.
For the notification on June 1, see RENESAS TOOL NEWS Document No. 090601/tn5 on the Web page at:

   http://tool-support.renesas.com/eng/toolnews/090601/tn5.htm

2. Switching between the Programming Tools Involved

The hardware and software programming tools involved will be switched as follows:
 - From:
     The HS0008EAUF1H
 - To:
     The E8a emulator and Flash Development Toolkit V.4.03 Release 02
       or later
On June 1, 2009, we notified you that Flash Development Toolkit V.4.04 Release 00 or later was to be used with the E8a after the switching.
Now, we change it to the Flash Development Toolkit V.4.03 Release 02, which was published on August 7, 2009.
For details, see RENESAS TOOL NEWS at

  http://tool-support.renesas.com/eng/toolnews/090807/tn1.htm

You can download the update program of the Flash Development Toolkit
V.4.03 Release 02 from:
  http://www.renesas.com/fdt_download
The above URL is one of our global sites.

3. Schedules of Switching the Programming Tools

As described above, the programming tools to be used have already been
on the market, so the schedules of switching the programming tools are
modified as follows:
(1) On August 7, 2009 (at the end of September 2009, in the previous
    news)
    Flash Development Toolkit V.4.03 Release 02 was already published,
    and the switching of the programming tools involved was started.
(2) At the end of September 2009 (in December 2009, in the previous news)
    The marketing of the HS0008EAUF1H was discontinued.
(3) At the end of March 2010
    An unfixed version of Flash Development Toolkit will be published
    (see NOTES 1 and 2).

   NOTES:
   1. Newly designed MCUs will still be added to the support line of the
      HS0008EAUF1H and this version of Flash Development Toolkit; however,
      not be added in the later versions.
   2. After this version, no flash development toolkits will support
      the HS0008EAUF1H; it will be removed from the list of the hardware
      tools supported by flash development toolkits.

4. Technical Support

Even after the marketing of the HS0008EAUF1H ends, technical inquiries
will be acceptable.
So ask us at csc@renesas.com (our contact center) by e-mail.

5. Purchasing the HS0008EAUF1H

If you are going to purchase the HS0008EAUF1H, also ask us at
csc@renesas.com by e-mail on the following subject:
  Subject: "On marketing of the HS0008EAUF1H discontinued"
