Application Leading Tool for RX111 Published

We have published the Application Leading Tool for RX111 V1.00.00, which is a generator for device driver codes.

1. Description

Application Leading Tool (Applilet) is a free tool that automatically generates programs (device drivers) for MCU peripheral functions (clocks, timers, serial interfaces, A/D converters, DMA controllers, etc.) based on settings entered via a graphical user interface (GUI).

Functions are provided as application programming interfaces (APIs) and are not limited to initialization of peripheral functions.

2. Product and Version Concerned

For RX111 group

- Application Leading Tool for RX111 V1.00.00
