## Device File Updater Specific to the C/C++ Compiler Package for the SuperH RISC engine Family Revised to V.1.09

We have revised the device file updater specific to the C/C++ compiler package for the SuperH RISC engine family of MCUs from V.1.08 to V.1.09. For an overview of device file updaters, see:

<http://www.renesas.com/dfu>

The above URL is one of our global sites.

---

### 1. Supporting C/C++ Compiler and Its Versions

The C/C++ compiler package for the SuperH RISC engine family V.9.00 Release 00 and later

Note, however, that to install the device file updater V.1.09 on your PC, you must install the V.9.03 Release 02 or later product of the above compiler package in advance.

For details, see Note 1 at the end of "Compiler Packages" on the Web page at:

[http://www.renesas.com/products/tools/ide/device\\_file\\_updater/child\\_folder/dfu\\_env\\_info](http://www.renesas.com/products/tools/ide/device_file_updater/child_folder/dfu_env_info).

The above URL is one of our global sites.

### 2. Descriptions of Revision

#### 2.1 Supported CPUs Increased

In Device File Updater V.1.09, the following CPU types have been added to those supported by V.1.08:

- SH7266
- SH7267

For the CPU types that can be added to the CPU Types list by using the revised product, see "The Product Versions and the Added CPU Types" on the Web site at:

<http://www.renesas.com/dfu>

This Web site will be updated on June 6.

The above URL is one of our global sites.

## **2.2 Modification of the Sample File Created**

The content of the sample file that is created when the following CPU type selected has been modified:

- SH7785

## **3. How to Obtain the Revised Product**

Download the installer of the device file updater specific to the C/C++ compiler package for the SuperH RISC engine family V.1.09 from:

[http://www.renesas.com/dfu\\_download](http://www.renesas.com/dfu_download)

Then install it. The installer will be published on the Web site on June 6.

The above URL is one of our global sites.
