## The Device File Updater Specific to the C/C++ Compiler Package for the SuperH RISC engine Family Revised to V.1.10

We have revised the device file updater specific to the C/C++ compiler package for the SuperH RISC engine Family from V.1.09 to V.1.10.

For an overview of device file updaters, see:

<http://www.renesas.com/dfu>

The above URL is one of our global sites.

---

### 1. Supporting C/C++ Compiler and Its Versions

The C/C++ Compiler Package for the SuperH RISC engine Family  
V.9.00 Release 00 or later

Note, however, that to install the device file updater V.1.10 on your PC, you must install the V.9.03 Release 02 or later product of the above compiler package in advance.

For details, see Note 1 at the end of "Compiler Packages" on the Web Page at:  
[http://www.renesas.com/products/tools/ide/device\\_file\\_updater/child\\_folder/dfu\\_env\\_info](http://www.renesas.com/products/tools/ide/device_file_updater/child_folder/dfu_env_info).

The above URL is one of our global sites.

### 2. Descriptions of Revision

#### (1) Added CPUs

In Device File Updater V.1.10, the following CPUs have been added to the CPUs supported by V.1.09:

- SH7268
- SH7269

You can check the list of CPUs that can be added by the device file updater in "The Product Versions and the Added CPU Types"

provided at the following Web page:

<http://www.renesas.com/dfu>

This Web site will be updated on September 21.

The above URL is one of our global sites.

## (2) Modified Sample Files

The contents of the sample files that are created when the following CPUs are selected have been modified:

- SH7136
- SH7137
- SH7203

## 3. How to Obtain the Product

Download the installer of the device file updater V.1.10 for the C/C++ compiler package for the SuperH RISC engine Family from:

[http://www.renesas.com/dfu\\_download](http://www.renesas.com/dfu_download)

Then install it. The installer will be published on the Web site on September 21.
