

FY08/3 Financial Results

Toshio Nakajima

President and CEO

May 14, 2008

NEC Electronics Corporation

<http://www.necel.com/ir/en/>

I. FY08/3 Financial Results

- ✓ Maintained operating profit in Q4 following on Q3
- ✓ Attained full-year operating profit of 5.1B yen with enhanced management efficiency
- ✓ Recorded a valuation allowance for deferred tax assets for a U.S. subsidiary

II. FY09/3 Forecasts

- ✓ Aim to attain net profit despite adverse currency conditions from strong yen (1\$=100 yen)

III. Mid-term Outlook

- ✓ Aim to attain operating profit margin of 5% by FY10/3 from improved cost structure and sales expansion

I. FY08/3 Financial Results

Summary Q4 Full Year

II. FY09/3 Forecasts

III. Mid-term Outlook

Financial Snapshot

(B yen)	FY08/3					
	Q4 March 31			Full-Year March 31		
	Actual	YoY	QoQ	Actual	YoY	Difference between Original Forecasts <small>(Announced May 14, 2007)</small>
Net Sales	166.0	-5.4	-4.8	687.7	-4.5	-2.3
Semiconductor Sales	155.4	-5.3	-8.3	653.3	-6.5	-16.7
Operating Income (Loss)	0.2	+18.0	-2.8	5.1	+33.7	+5.1
Income (Loss) Before Income Taxes	-6.7	+19.6	-8.4	-3.3	+32.1	+6.7
Net Income (Loss)	-12.0	+16.3	-11.1	-16.0	+25.5	-1.0
Free Cash Flows	-3.8	+13.8	-2.8	5.5	+17.3	-
D/E Ratio	0.51	-	-	0.51	-	-
Shareholders' Equity Ratio	36.9%	-1.2% points	-1.9% points	36.9%	-1.2% points	-
Exchange Rates	US\$1=109 yen Euro 1=160 yen	US\$ 10 yen strong Euro 4 yen weak	US\$ 5 yen strong Euro 3 yen strong	US\$1=116 yen Euro 1=161 yen	US\$ 1 yen weak Euro 12 yen weak	US\$ 1 yen weak 1H: Euro 1 yen weak 2H: Euro 6 yen weak

Note: NEC Electronics' consolidated information is in accordance with U.S.GAAP. However, the figure for operating income (loss) shown above represents net sales minus the cost of sales, research and development expenses, and selling, general, and administrative expenses.

Trends in Quarterly Results

(B yen)

Note: Operating Income (Loss) = Net Sales – COGS – R&D – SG&A

Summary Q4 **Full Year**

II. FY09/3 Forecasts

III. Mid-term Outlook

FY08/3 Semiconductor Sales by Platform **NEC**

(B yen)

+/- Factors

SoC

- +) Increase in sales of EMMA products for digital AV and LSIs for game consoles
-) Decrease in sales of LSIs for digital cameras and printers

MCU

- +) Growth in sales of automotive MCUs in Japan and Europe and All Flash MCUs

Discrete and IC

- +) Increase in sales of large LCD driver ICs and power MOSFETs, and expanded share in high-frequency transistors
-) Sharp decline in sales of small LCD driver ICs

Operating Expenses and CAPEX

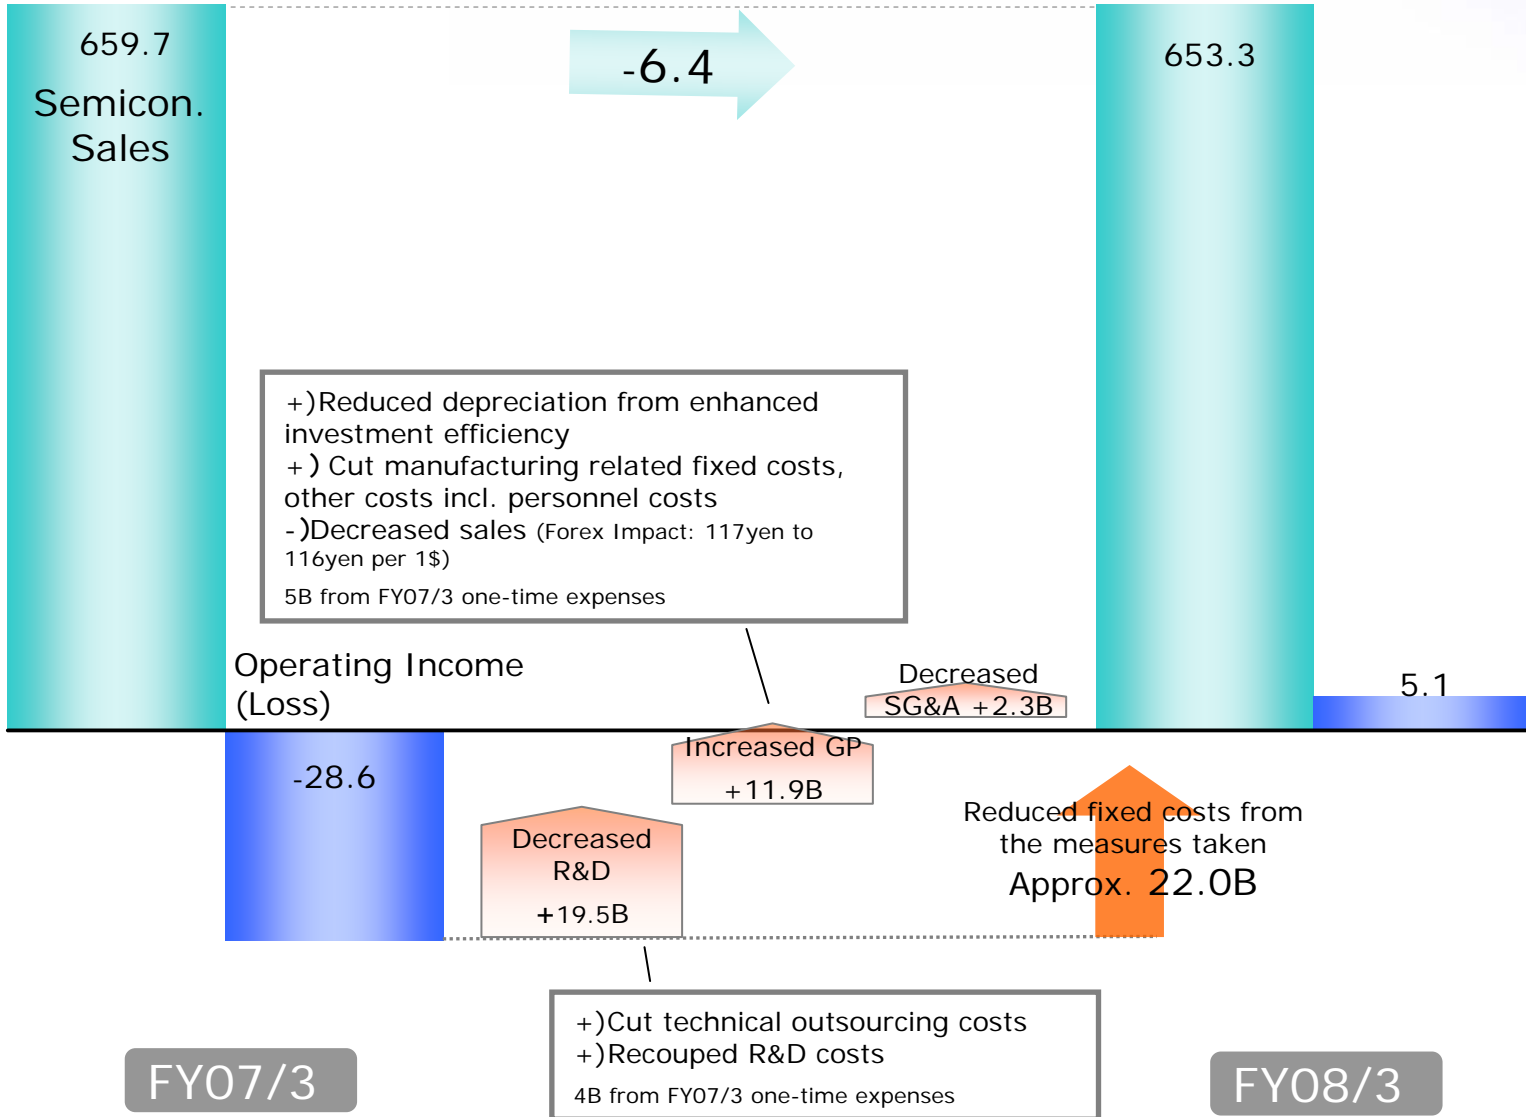

Reduced fixed costs by 22B yen year on year, exceeding the original target by 20B yen.

Factors in Operating Income (Loss)

(B yen)

YoY

FY07/3

FY08/3

I. FY08/3 Financial Results

II. FY09/3 Forecasts

III. Mid-term Outlook

Aim to achieve net profits for the full year

(B yen)	FY08/3			FY09/3			
	1H	2H	Full-Year	1H	2H	Full-Year	
	Actual	Actual	Actual	Forecast	Forecast	Forecast	YoY
Net Sales	351.0	336.8	687.7	335.0	350.0	685.0	-2.7
Semiconductor Sales	334.1	319.2	653.3	320.0	330.0	650.0	-3.3
Operating Income (Loss)	1.9	3.2	5.1	3.0	7.0	10.0	+4.9
Income (Loss) Before Income Taxes	1.8	-5.1	-3.3	0	4.0	4.0	+7.3

Progress of Management Policies

(Announced in Feb. 22, 2007)

Items and Primary Measures		Status <small>(as of May 14, 2008)</small>
Reallocate development resources	Reduce technology outsourcing costs roughly equivalent to 600 people	Completed
	Shift development resources roughly equivalent to 400 employees.	Completed
Manufacturing	Reorganization and Consolidation	Shifting equipment and production at some lines 8-inch line Yamagata: To be closed in Dec. 2008 6-inch line Kyushu: To be closed in Sept. 2010 6-inch line Kansai: Under evaluation
Front-end	<ul style="list-style-type: none"> ➢ Expand capacity at 8-inch lines in Kyushu and Kansai ➢ Consolidate and shift to larger wafer production lines 8-inch line in Yamagata, 6-inch lines in Kyushu and Kansai 	
Back-end	Shifting production of some general purpose products overseas	
Corporate Reorganization	Established 3 business units (SoC, Microcomputer, and Discrete and IC), and enhance profit management by business units	Operations under 3 business units
Fixed cost reduction	Reduce technology outsourcing, fixed production costs by limiting CAPEX etc, and other fixed costs including personnel costs	Completed FY08/3: Reduced 22B yen YoY
Additional measures (announced in Nov. 2007)	Reduced personnel by implementing early retirement plan	Reduced 685 personnel
	Closure of Sagamihara 300mm pilot line Transfer advanced technology dev't functions to Yamagata	To be closed by the end of FY09/3
	Consolidated 6 manufacturing companies in Japan to 3 by business units. Established an efficient flow from development to manufacturing by products	Operations under 3 manufacturing companies since April 1, 2008

Mid-term Outlook

Large projects in progress, which will contribute to sales expansion

Digital consumer LSI

- Focusing on specific application LSIs (ie. Camera engine) for mobile handsets
Design-wins for several global mobile handset models (with camera functions)
- EMMA for digital AV platform
More design-wins to obtain the world-leading share in Blue-Ray DVD market.
Increasing customers for digital TV in and outside of Japan

Market expansion of embedded DRAM LSI

- Achieved lower costs and accommodated large-capacity memory (the industry leading 384Mb) by 55 and 40nm process technologies, in entering new business areas in graphic processing such as digital TVs and mobile handsets.
- The industry-leading record of embedded DRAM LSI production, winning 10 customers in and outside of Japan

Outlook for Manufacturing Capacity of Yamagata 300mm line

- With FY09/3 CAPEX of 60B yen, expanding up to 20K wafers per month (transferring equipment from the Sagamihara pilot line)
- Becoming a world leading-scale 12-inch logic line on a single floor

Automotive and multi-purpose MCUs contributing to steady growth

(B yen)

Super low-power "eco-friendly" MCU

➤ Introduced All Flash MCU using unique low-power technologies

Newly entered car navigation business

- Introduced 55nm product with multi-core process technology
- Several large scale design-wins

Reinforce cost competitiveness through finer process geometries

- Enrich 150nm product lineup (500 products) and expand manufacturing capacity
- Introducing 90nm flash MCU for automobiles

Outlook for Manufacturing Capacity of Kyushu 8-inch line

➤ Expanding overall capacity and raising 150nm process technology ratio

Focusing on strong products, enhancing cost competitiveness by shifting to larger wafers and utilizing outside manufacturing capacity

Power Management Devices

- (power MOSFET, power management IC)
- Focusing on auto, PC, battery areas
- Teamed with Intel to develop a power management IC solution optimized for mobile internet devices
- Expanding floor for Kansai 8-inch line (+10K wafers per month) designating Kansai as a main manufacturing site

Compound semiconductors

- Expanding share of industry-leading products
 - GaAs switch IC: Worldwide share 25% (2007, source: NEC Electronics)
 - Rapid expansion of mobile handset and wireless LAN market
 - Co-development with major wireless LAN chip set manufacturers to set the industry de facto standard
- Multi-purpose photocouplers: Worldwide share 20% (2007, source: NEC Electronics)

Outlook for Manufacturing Capacity of Kansai 8-inch line

- Shifting production of power semiconductors to 8-inch wafers
- Expanding outside production and shifting to finer process geometries for display driver ICs in FY10/3

Recovered operating profits in FY08/3 with improvements in management efficiency.

Aim to attain net profit in FY09/3

Aim to attain operating profit margin of 5% by FY10/3 by reinforcing business operations. Developing new business to drive sales expansion.

NEC Electronics Corporation

Cautionary Statements

The statements in this presentation with respect to the plans, strategies and forecasts of NEC Electronics and its consolidated subsidiaries (collectively “we”) are forward-looking statements involving risks and uncertainties. We caution you in advance that actual results could differ materially from such forward-looking statements due to several factors. The important factors that could cause actual results to differ materially from such statements include, but are not limited to: general economic conditions in our markets, which are primarily Japan, North America, Asia and Europe; demand for, and competitive pricing pressure on, our products and services in the marketplace; our ability to continue to win acceptance of its products and services in these highly competitive markets; and movements in currency exchange rates, particularly the rate between the yen and the U.S. dollar. Among other factors, a worsening of the world economy; a worsening of financial conditions in the world markets, and a deterioration in the domestic and overseas stock markets, would cause actual results to differ from the projected results forecast.
