II. Business Management Policy of the Integrated Company

Renesas Technology Corp. Representative Director,
President Yasushi Akao

Business Management Policy and Targets

Business Management Policy

- Rapidly promote operational efficiencies through realization of synergies from the business integration
- Expand foreign business with streamlined resources
- Aim to expand sales and profits by growing global businesses

Business Targets

- Start operation with healthy balance sheet
- Achieve operating profit within the first fiscal year
- Aim to attain net profit in the second fiscal year through successful implementations of structural reforms at an early stage of the merger
- Target two-digit operating profit ratio (compared with net sales) in the medium-term

Balance Sheet of the Integrated Company

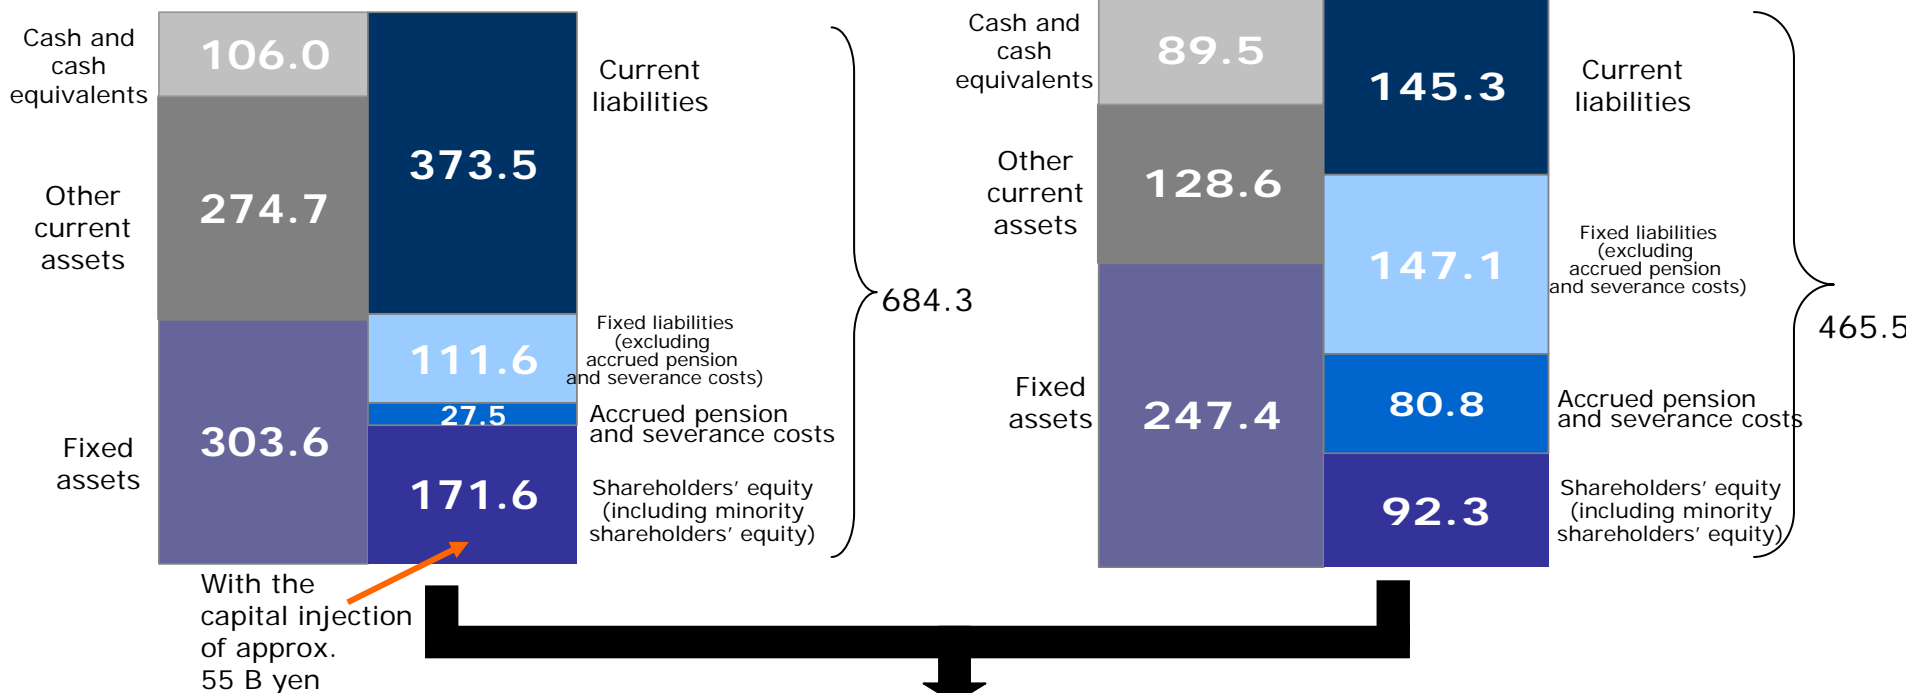

Renesas Technology

(Japan-GAAP, as of Sep. 30, 2009)

(B Yen)

NEC Electronics

(US-GAAP, as of Sep.30, 2009)

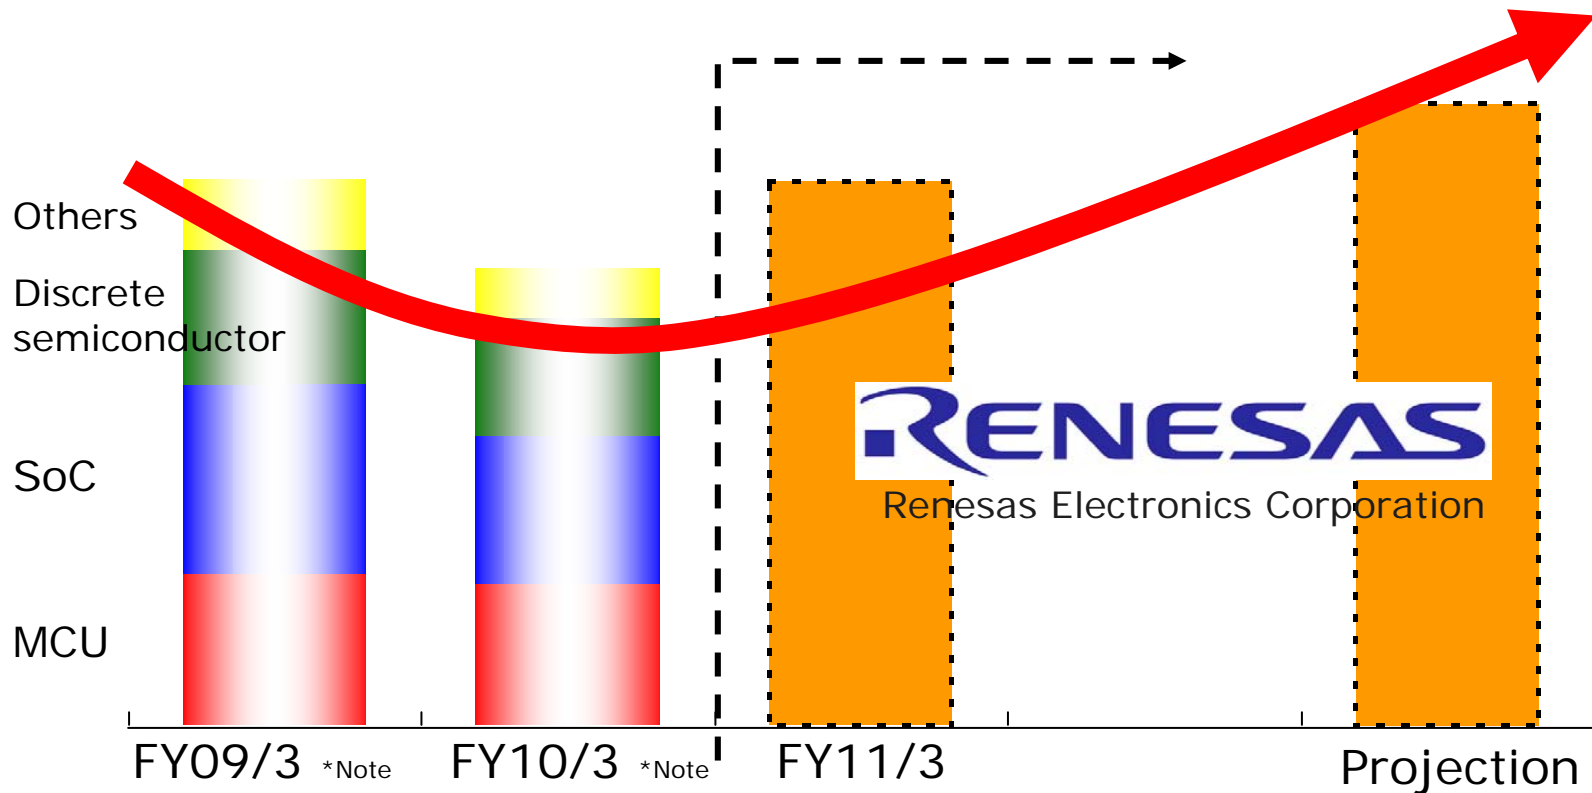

Variable Factors by the effective date of Merger

- ◆ Additional capital injection as much as 16.7 billion yen to Renesas (in FY10/3)
- ◆ Financial outcome of the two companies in 2H FY10/3
- ◆ An alignment of GAAP and accounting policy among the two companies
- ◆ The post-merger capital injection as much as approx. 134.6 billion yen on the effective date of the merger

The integrated company will start with healthy B/S

Sales by Platform at the Integrated Company

- Provide 3 product groups, MCU, SoC and discrete semiconductor (analog & power device) as the key businesses of the Integrated company
- Promote steady growth in sales by providing MCUs, SoCs and discrete semiconductors as kit solutions

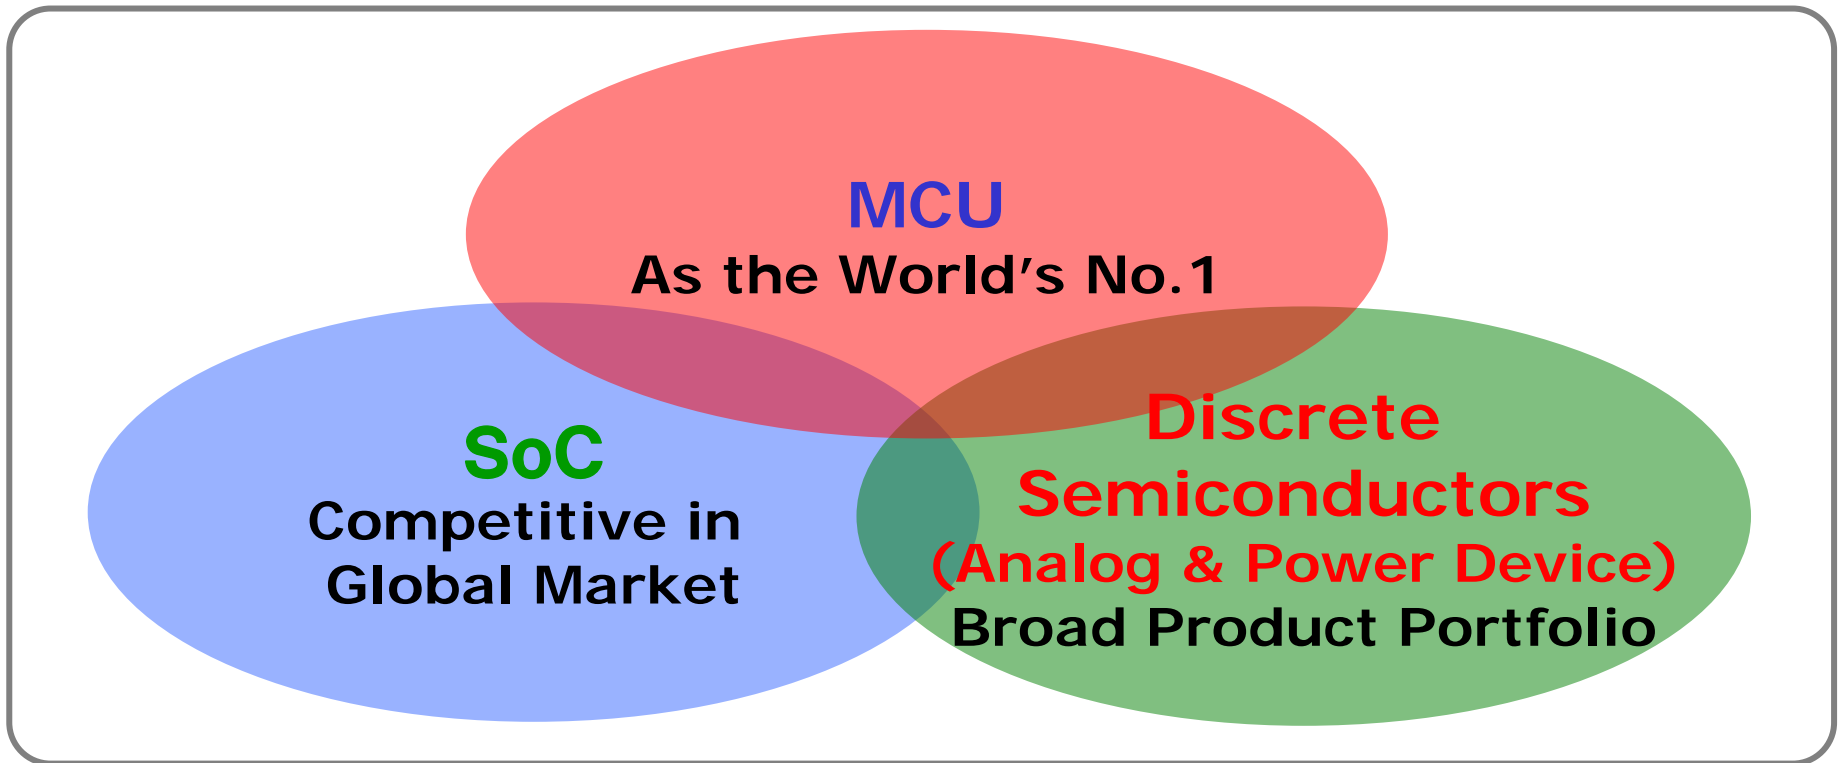

*Note: Amounts shown above represent the sum of each sales at NEC Electronics and Renesas.

Provide Three Enhanced Product Gr. for W/W Customers

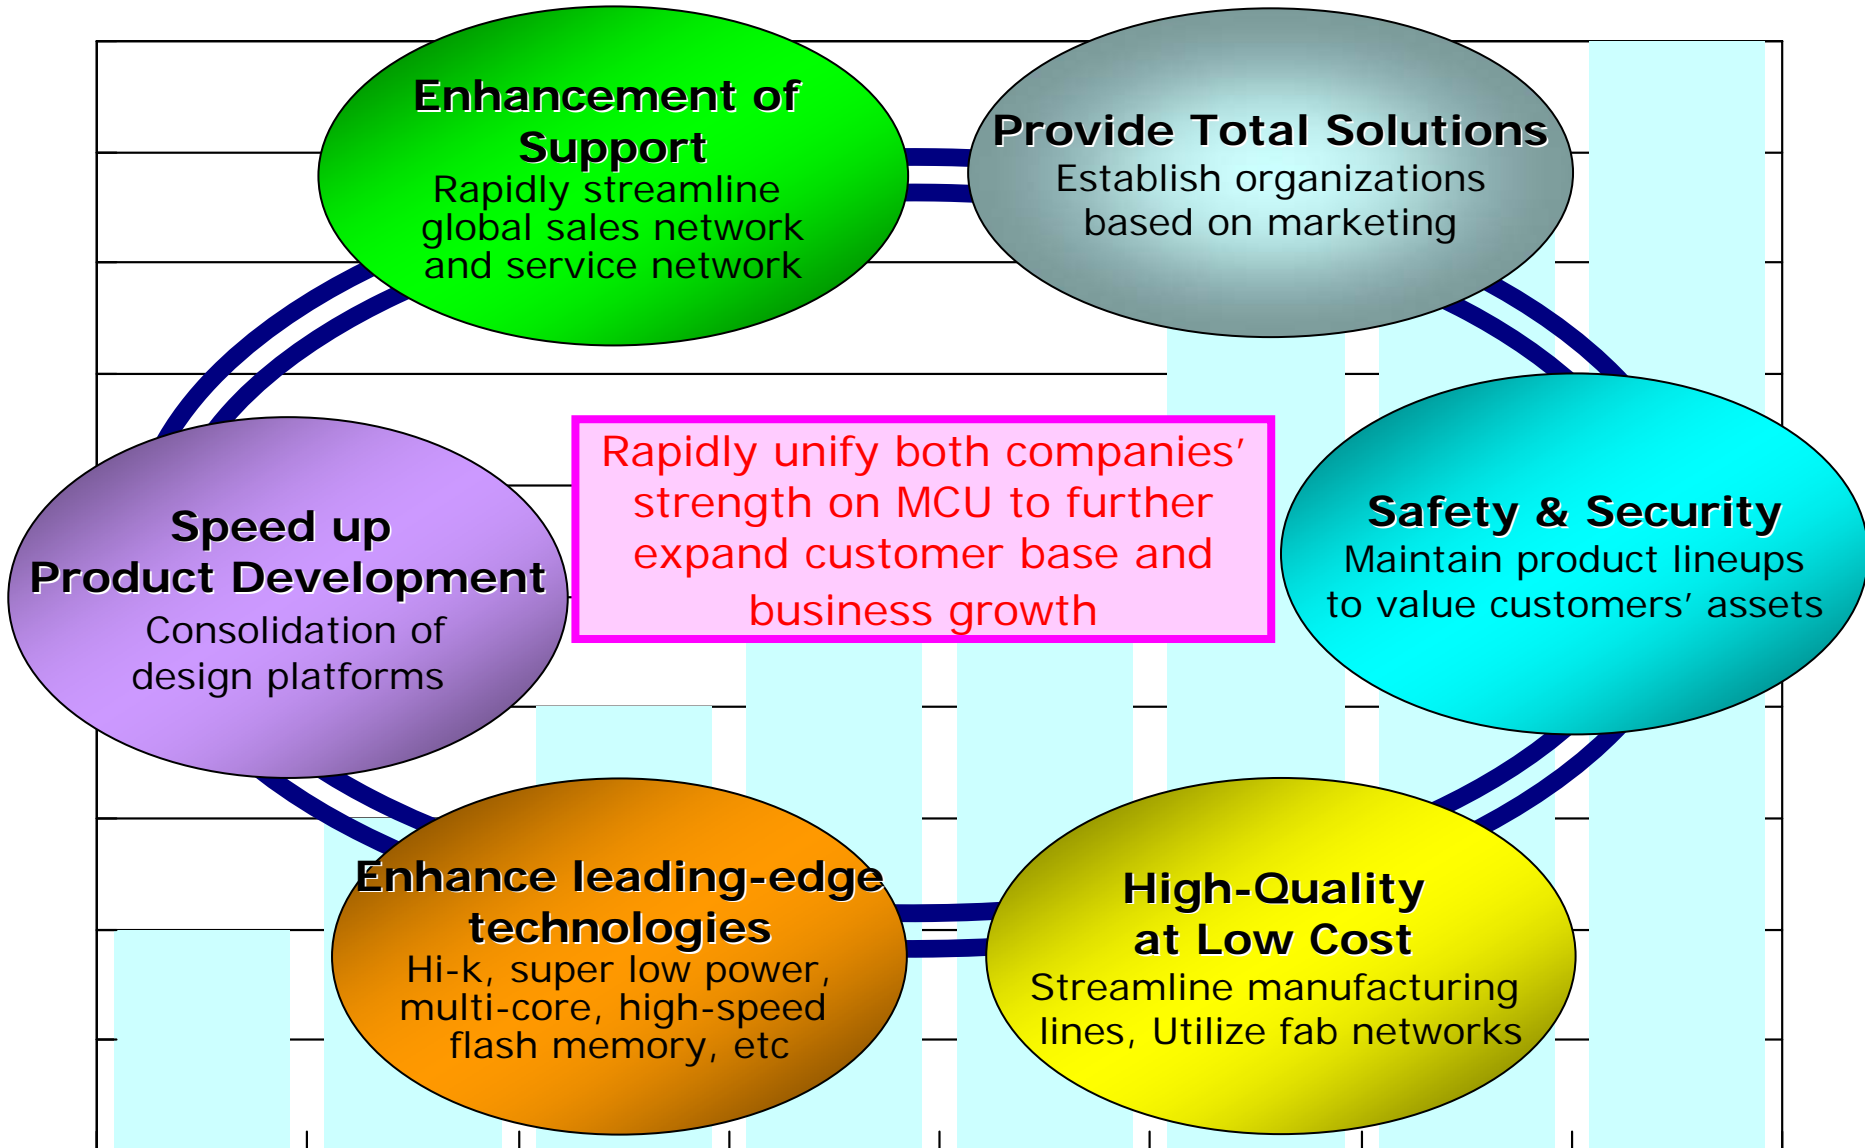

Increase W/W Customer Satisfaction

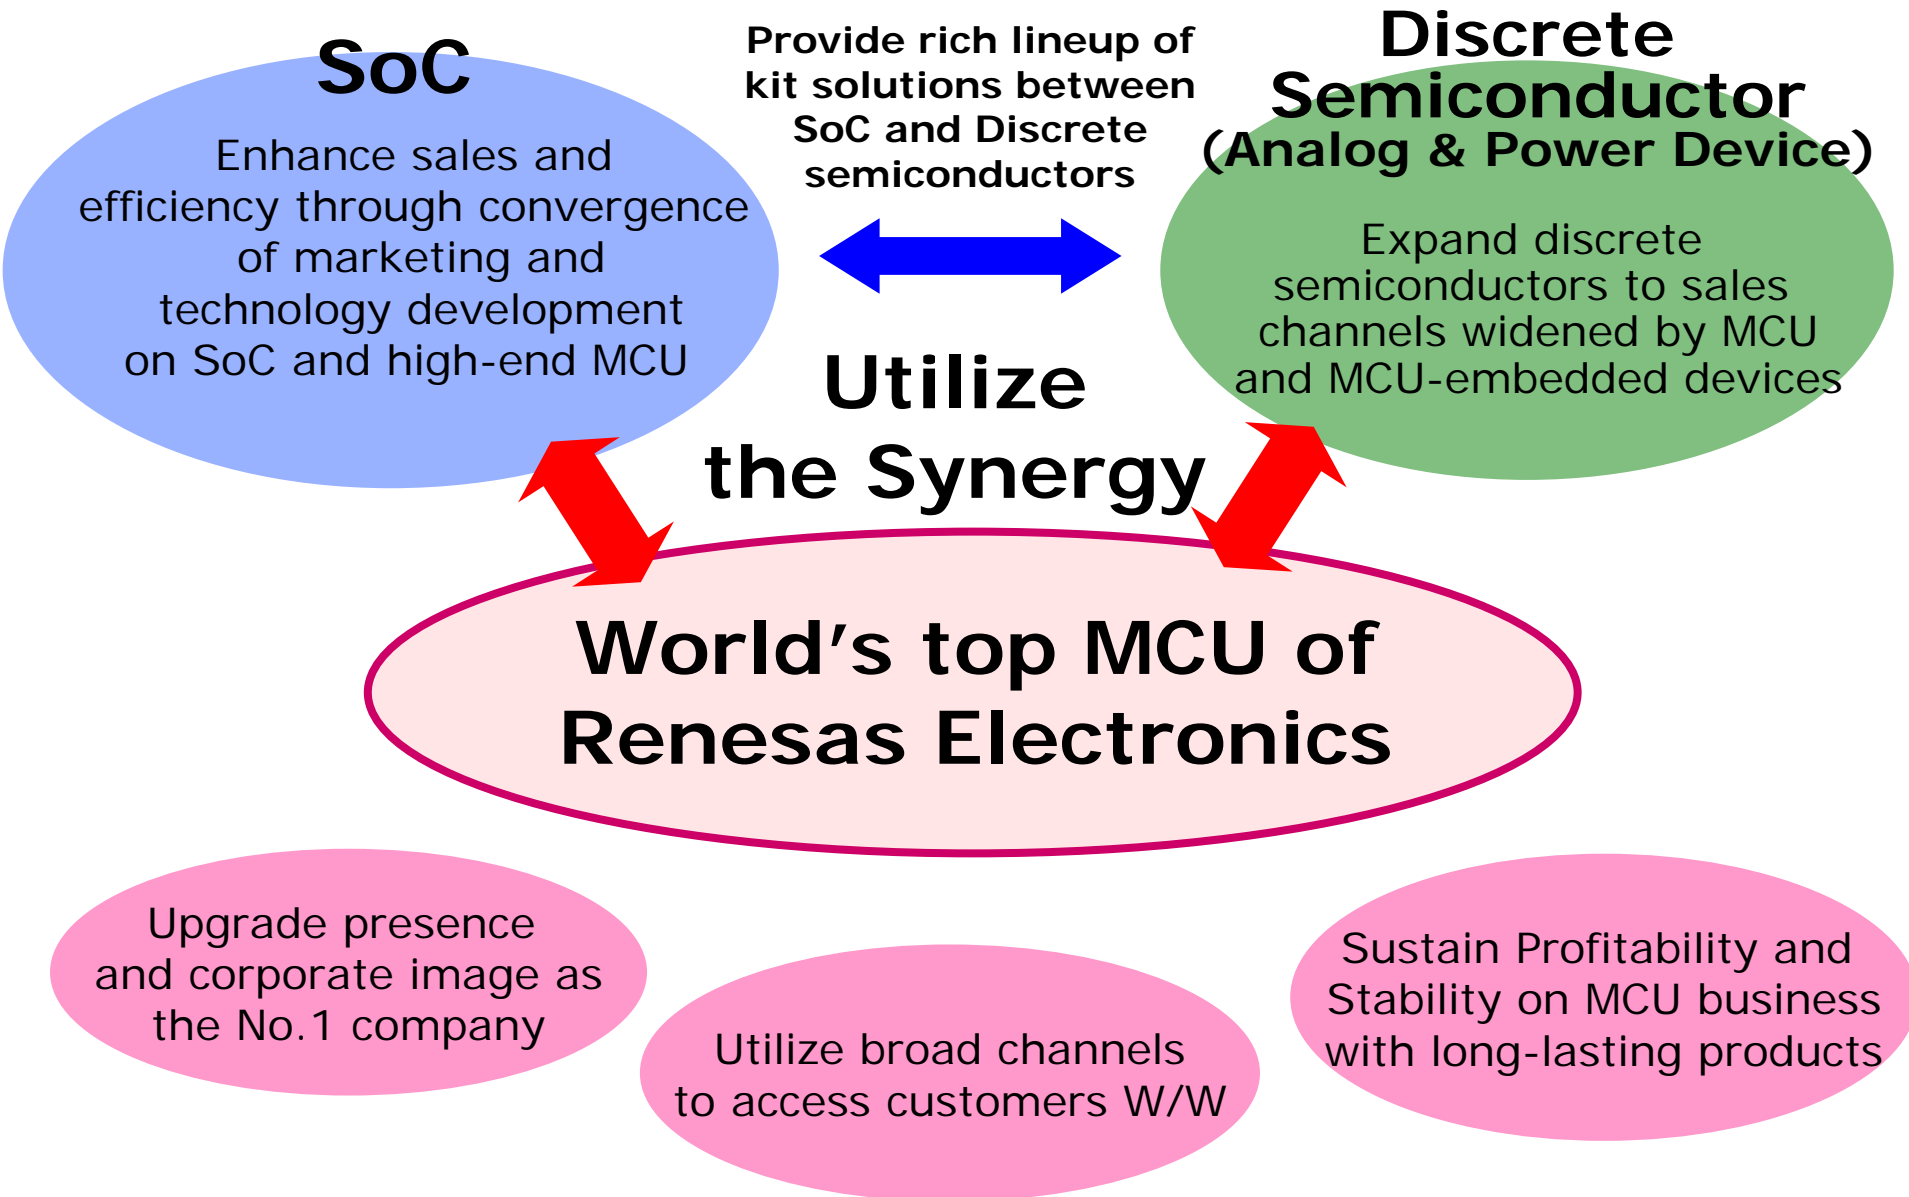

Provide System Solutions with MCU as the Core Product

Enhancement Policy for MCU Business

Strong Product Lineups through Synergy with Core MCU

Attain Growth in the Global Market

➤ Expand foreign sales in green applications

- **Smart Grid:** MCUs for electricity meters, RF semiconductors
- **Low-power home electronics:** MCUs for inverter control, LED driver
- **Green cars:** MCUs for motor/power supply control, Optical devices

➤ Enhance marketing and product development for emerging markets

- **Strengthen local marketing and product planning for the customers around the world**
- **Expand low-cost products for BRICs, etc**

(FY09/3 Actual *Note)

Target

*Sales for semiconductor devices

Realization of New Policies within the first 100 days

- ✓ Paramount project to be completed in the first 100 days
- ✓ Assign task force to screen out businesses in focused areas
- ✓ Aggressively implement structural reforms by the top-down management

Reduce
fixed cost

New policies

Expand business
in emerging
markets

- Improve development efficiency by standardizing design/development platforms, and concentrate resources on focused applications and products
- Enhance fab utilization rates and suppress CAPEX by efficient usage of both companies' production lines
- Reduce cost by efficient procurement and increased outsourcing
- Streamline sales operations and strengthen marketing and customer support locally to expand foreign sales
- Cut cost through consolidation of infrastructures including logistics and IT systems

Aims of the New Company

Create Globally Competitive Products

Attain Growth in the Global Market

Continuously Promote Structural Reforms

**Enhance Corporate Value Through
Customer Value Creation**

Cautionary Statements

The statements in this presentation with respect to the plans, strategies and forecasts of NEC Electronics and Renesas Technology (collectively “we”) are forward-looking statements involving risks and uncertainties. We caution you in advance that actual results could differ materially from such forward-looking statements due to several factors. The important factors that could cause actual results to differ materially from such statements include, but are not limited to: general economic conditions in our markets, which are primarily Japan, North America, Asia and Europe; demand for, and competitive pricing pressure on, our products and services in the marketplace; our ability to continue to win acceptance of its products and services in these highly competitive markets; and movements in currency exchange rates, particularly the rate between the yen and the U.S. dollar. Among other factors, a worsening of the world economy; a worsening of financial conditions in the world markets, and a deterioration in the domestic and overseas stock markets, would cause actual results to differ from the projected results forecast.
