Declaraton of Compliance
Restriction of the use of certain Hazardous Substances (RoHS)

Based on information provided by our suppliers or own investigations, Renesas Electronics (Europe) GmbH designates the products listed below for orders placed on or after the date of this declaration ("Products") as RoHS compliant.

RoHS compliant means that:
- Our supplier has confirmed the compliance status of component parts for the Products to us;
- We have implemented certain processes to confirm and document this; and
- We perform material content testing of the component parts, if necessary.

Confirmation of compliance status by our suppliers is either because our suppliers have confirmed that the products do not contain any of the restricted substances referred to in Article 4(1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS Directive, or the removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

We,

RENESAS Electronics Europe GmbH
Arcadiastrasse 10
D - 40472 Düsseldorf
Tel.: 0211 / 6503 - 0

have taken the steps stated above to confirm suppliers' statements regarding the absence of the restricted substances and maintain a reasonable audit trail of relevant documentation to support this.
