2 Dialog 1Mbit Products Overview

This document describes 1Mbit products available from Dialog Serial Flash Memory family.

The AT25EU0011A is a low power low energy memory. It incorporates features geared towards energy savings such as page erase, low power read, low power erase and low power program. Finally it has a very fast erase of 8ms typical from page erase to full chip erase.

The AT25EU0011A is ideal for battery powered system, because batteries have finite energy stored in them. The fast erase times and low erase and program power enables lowest energy usage to be achieved.

This document compares the differences between the 1Mbit products in more detail.

Table 1: 1Mbit Products Overview

Family	Part Number	Product Status	Nominal System Voltage	SPI Support
DF	AT25DF011	Mass Production	1.65V to 3.6V	Single/Dual
DN	AT25DN011	Mass Production	2.3V to 3.6V	Single/Dual
XE	AT25XE011	Mass Production	1.65V to 3.6V	Single/Dual
EU	AT25EU0011A	Sampling	1.65V to 3.6V	Single/Dual/Quad

3 Feature Comparison

Table 2 describes major feature differences between the 1Mbit products.
