Optimal Power Management for Renesas SOCs

Power Management Solutions for Renesas R-Car

**Simplify Development & Reduce Time-to-Market**
- Power and safety capability tailored to support R-Car SOCs
- Scalable family supports easy migration from entry to high-end
- Integration of R-Car with the PMICs is verified by Renesas

**Reduce ECU Bill-of-Materials Cost**
- Integrated FuSa support eliminates safety overhead, i.e. MCU, ADC, etc.
- Fast transient capability requires lower output capacitance
- High level of integration eliminates the need for external MOSFETs, diodes, feedback resistors, and compensation components

**Optimize Mounting Requirements**
- Single-phase regulators reduce PCB area due to elimination of external components
- Best-in-class efficiency of high-current core regulator lowers heat generation, reducing cooling requirements on the PCB

Complete Clock Solutions for Complex ADAS Systems from Renesas Electronics

VersaClock® Timing Generators

Automotive Clocks & Timing | Renesas

Reduce board space with increased flexibility and performance

- “Any frequency” clock generation thanks to Fractional Output Divider technology
- Replace multiple crystal oscillators at lower overall system cost
- PCIe® Gen 1 - Gen 4
- Lower power and PCB area
- EMI reduction features: Spread Spectrum, Slew Rate reduction, ...
- AEC-Q100 qualified, IATF 16949 manufacturing, PPAP support

Qualify once, reuse everywhere!

- Factory programmed and tested One-Time-Programmable (OTP) ROM configurations
- New OTP-ROM configurations created in minutes with an easy-to-use webtool

VersaClock® 6E 5P49V60

- <500 fs rms Jitter (12 kHz - 20 MHz integration range)
- 4 fully configurable output pairs
- “Any Frequency” outputs, 1-350 MHz
- 4x4 QFN24 Wettable Flank
- Temperature Grade 2 (-40 °C to +105 °C)
- 5P49V60 VersaClock® 6E | Renesas

VersaClock® 3S: 5P35021 – 5P35023

- 2 configurable output pairs + 1 or 3 single-ended
- <2 uA 32.768 kHz RTC clock
- DFC-Dynamic Frequency Control
- Configurable OE pin function
- 3x3 QFN20 / 4x4 QFN24 Wettable Flank
- Temperature Grade 2 (-40°C to +105°C)
- 5P35021 VersaClock® 3S | Renesas
- 5P35023 VersaClock® 3S | Renesas
